

Date: -16-07-2025**2.3.1 Student-centric methods are used for enhancing learning experiences by:**

1. Promoting active participation: These methods encourage students to actively engage in the learning process rather than passively receiving information.
2. Encouraging critical thinking and problem-solving: Students are challenged to analyze, evaluate, and create, which enhances their understanding and application of knowledge.
3. Personalizing learning: Student-centered approaches take into account individual learning styles, interests, and pace, making learning more relevant and effective.
4. Fostering collaboration and communication: Techniques like group work, peer teaching, and discussions help students learn from each other and develop essential interpersonal skills.
5. Building autonomy and responsibility: Learners take ownership of their learning, setting goals, making choices, and reflecting on their progress.
6. Utilizing real-world contexts: By connecting lessons to real-life applications, students find more meaning in what they learn, which increases motivation and retention.
7. Integrating technology and innovation: Digital tools and platforms support interactive and personalized learning experiences.

A handwritten signature in blue ink, appearing to be "J. Patil".

Dean,
Dr. Ulhas Patil Medical College
& Hospital, Jalgaon Kh.
