

#### 4.2.1 – Adequacy of Teaching Hospital, Equipment, and Clinical & Laboratory Facilities

Dr. Ulhas Patil Medical College is supported by a well-equipped teaching hospital that caters to comprehensive patient care and clinical training needs.

##### **Patient Care Facilities:**

- **Hospital Infrastructure:** The attached hospital provides both outpatient and inpatient care with adequate bed strength, modern operating theatres, emergency and casualty units, intensive care units (ICUs), and specialty clinics.

- **Diagnostic & Imaging Services:** Fully functional laboratories and advanced imaging facilities including X-ray, ultrasound, CT scan, MRI, and other diagnostic modalities support accurate clinical decision-making.

- **Pharmacy Services:** An in-house pharmacy ensures availability of essential medicines and pharmacy counseling services for patients.

- **Rehabilitation Support:** Dedicated physiotherapy and rehabilitation units cater to post-treatment care and functional recovery.

##### **Teaching & Learning Facilities:**

- **Lecture Halls & Classrooms:** Spacious, ICT-enabled lecture theatres and seminar rooms support interactive teaching and case-based learning.

- **Library & E-Resources:** A well-stocked library with textbooks, journals, e-resources, and digital learning platforms provides a rich academic resource base.

##### **Research & Laboratory Facilities:**

- **Research Laboratories:** Equipped with modern instruments to facilitate medical and clinical research projects.

- **Animal Research Facilities:** Approved animal house with surgical suites and trained staff ensures ethical and regulated pre-clinical research.

- **Research Centers & Ethics Committee:** Dedicated research units focusing on specialized areas and an active Institutional Ethics Committee ensure high standards of research quality and compliance.

Overall, the institution integrates patient care, clinical exposure, research, and teaching in a well-coordinated manner, offering students a complete hands-on and evidence-based medical education experience..
