Staff Performance Self-Appraisal Report

Academic Year: From 01/08/2024 to 31/07/2025

Name of Faculty	Dr. Amrut A. Mahajan		
Qualification	MBBS MS	**Designation:**	Prof & HOD
Department	Anatomy	**Date of Joining**	19/09/2011
University Approved faculty with Date	MUHS approval for faculty	**Total Teaching Exp.:**	40yrs.

SECTION- I.
Teaching Learning and Evaluation: (Total Credit Points:40)

A. Teaching Load Details (15 Credit Points) — **To be filled by Faculty**

No. of Lectures /Practical Scheduled	No. of Lectures/ Practical Conducted	No. of Tutorials/ SGD Scheduled	No. of Tutorials/ SGD Conducted	No. of Seminar/ Demonstration Scheduled	No. of Seminar/ Demonstration Conducted	Overall Percentage of Attendance	Result of Subject
103	103	20	20	10	10	100 %	Good

Guidelines for Evaluation: - Teaching Load Conducted
(100% or more: 15 credit points ; 90 – 99 conducted: 12 credit points ; 80 – 89 % conducted: 9 credit points;
70 – 79 % conducted: 6 credit points; Below 69% conducted: 3 credit points)

B. Teaching Load Academic Schedule Details: (25 Credit Points) — **To be filled by Faculty**

Use of Pedagogical Aids in T-L method (5 credit points)	Paper setting/ Paper checking Departmental work (5 credit points)	Efforts taken for improvement of Students performance (5 credit points)	Project Guided to Students (5 credit points)	Funded Research Projects Undertaken (5 credit points)
Yes	Yes	Yes	NO	NO

SECTION: II
Research, Academic Contribution and Professional Achievements: (Total Credit Points:60)

A. Examination Duties at University level / College level: (10 credit points) — **To be filled by faculty**

Sr	Examination	Centre	Worked as External / Internal	Duration in Days
1.	MUHS University	DUPMC, Jalgaon	Convenor	4 days
2.	Ist Termincl	DUPMC, Jalgaon	Internal	5 days
3.	IInd Termincl	DUPMC, Jalgaon	Internal	5 days
4.				
5.				

Guidelines for Evaluation: Duration of Examination: 1 day one credit point. Maximum 10 credit points

B. Research Article Published in National, International Journal / Book Chapter Published					
First author: 7 Credit Point /Activity; Second author: 5 Credit Point /Activity. (Max. 2 activity)					
1.	Title				
	Name of Journal		ISSN/ISBN No.		
	Indexed In		Author Order		
	Publication Details	Year/Volume/Issue/Page Number			
2.	Title of Book				
	Publisher		ISBN No.		
	Publication Details	Edition / Year			

C. Paper / Poster presented in conference				
5 Credit Point /Activity (Max. 2 activity)				
1,	Title of Paper / Poster			
	Conference Details	Organized by		
		Place and Date		
2.	Title of Paper / Poster			
	Conference Details	Organized by		
		Place and Date		

D. Seminar/ Conference/ Workshop/ CPD/ FDP, etc Participated				
5 Credit Point /Activity (Max. 2 activity)				
Sr	Name of Program	Place & Date	Duration	Organized by
1.				
2.				

E. Contribution as Resource Person, Invited speaker, Reviewer, Session Chair, Members of Conference Committee (Not organized by own institute) / Patent/ Copy right				
8 Credit Point /Activity (Max. 2 activity)				
Sr	Name of Program	Place & Date	Contribution as	Organized by
1.				
2.				
Attached copy of all relevant document for Section II				

SECTION- III

Extension and Co-Curricular activities with Professional Development: (Total Credit Point: 30)

A. Participation in organizing curricular/ co-curricular/ extracurricular activities

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.				
2.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

B. Contribution in UG/PG Admission process/ Counselling/ Institutional Development (NAAC/NABH etc)

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.				
2.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

C. Participation in Administrative and other responsibility

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.				
2.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

Sub.: Regarding Conduct of University Practical Examinations and Assessment of Theory Papers.

Sir/Madam,

1. I am directed to inform you that Board of Examinations is pleased to appoint you as an 'Convenor/Examiner'. The details of your assignments are given in Appendix-A mentioned below. Please keep your appointment strictly confidential and address all the correspondance in connection to the Controller of Examinations.
2. This appointment is issued subject to the assumptions mentioned below:-
   - That none of you has any relation of the following type appearing in the class and faculty for which your appointment is made, at this examination of the University:-
     wife, husband, son, daughter, grand-son, grand-daughter, brother, sister, nephew, niece, uncle, grand-nephew, grand-niece, aunt, first cousin, son-in-law, daughter-in-law, brother-in-law and sister-in-law.
     (N.B. - Son, daughter, brother or sister will be understood to include also step-son, step-daughter, step-brother or step-sister as the case may be.)
   - That none of you is debarred from examination work by the parent or any other University.
   - That you are not a member of Board of Examinations.
   - That you are not undergoing Post Graduate examination of this University.
3. You are required to be in touch with the Principal and the Convenor for further details. Kindly specify your acceptance or non-acceptance online or by email to email id and telphone numbers to this office with a copy to the Convenor.
4. Kindly also note that during the period of Practical Examination, you will be given a job of assessment of Theory Answerbooks and you will not be permitted to leave the Exam Centre without completion of the said task. Valuation of Theory manuscripts is compulsory if allotted.
5. **Sr. External Examiner should be held responsible for checking IA marks of concerned subject as per norms of respective central council / commission.**
6. Your reply should reach the University within 7 days from the receipt of the appointment by SMS/Email/etc.; otherwise it will be teated as your non-acceptance for the same.
7. Please note that the University examination work is mandatory as per the provisions of Section-63(g) of the MUHS Act 1998. If it is refused without substantial ground, disciplinary action shall be initiated.
8. Please intimate this office, if you are holding any other appointment of the University, other than this appointment.
9. Your kind cooperation in smooth functioning of the examination is solicited.

Staff Performance Self-Appraisal Report

Academic Year: From 01/08/2024 to 31/07/2025

Name of Faculty	Dr. Shubhangi B. Ghule		
Qualification	M.D. Anatomy	**Designation:**	Professor
Department	Anatomy	**Date of Joining**	28/5/2011
University Approved faculty with Date	MUHS approval for associate Professor 15/7/2024 to 14/7/2026	**Total Teaching Exp.:**	14 yrs.

SECTION- I.
Teaching Learning and Evaluation: (Total Credit Points:40)

A. Teaching Load Details (15 Credit Points) — **To be filled by Faculty**

No. of Lectures /Practical Scheduled	No. of Lectures/ Practical Conducted	No. of Tutorials/ SGD Scheduled	No. of Tutorials/ SGD Conducted	No. of Seminar/ Demonstration Scheduled	No. of Seminar/ Demonstration Conducted	Overall Percentage of Attendance	Result of Subject
101	101	63	63	8	8	100%	Satisfactory

Guidelines for Evaluation: - Teaching Load Conducted
(100% or more: 15 credit points ; 90 – 99 conducted: 12 credit points ; 80 – 89 % conducted: 9 credit points;
70 – 79 % conducted: 6 credit points; Below 69% conducted: 3 credit points)

B. Teaching Load Academic Schedule Details: (25 Credit Points) — **To be filled by Faculty**

Use of Pedagogical Aids in T-L method (5 credit points)	Paper setting/ Paper checking Departmental work (5 credit points)	Efforts taken for improvement of Students performance (5 credit points)	Project Guided to Students (5 credit points)	Funded Research Projects Undertaken (5 credit points)
Yes	Yes	Yes	NO	NO

SECTION: II
Research, Academic Contribution and Professional Achievements: (Total Credit Points:60)

A. Examination Duties at University level / College level: (10 credit points) — **To be filled by faculty**

Sr	Examination	Centre	Worked as External / Internal	Duration in Days
1.	I st MBBS I st term, 2nd term	DUPMC, Jalgaon	Internal	15 days
2.	Preliminary exam			
3.	GMC Jalgaon University exam	GMC, Jalgaon	Internal	3 days
4.	university exam	DUPMC Jalgaon	Internal convenor	4 days
5.	university exam	DUPMC, Jalgaon	Internal	3 days

Guidelines for Evaluation: Duration of Examination: 1 day one credit point. Maximum 10 credit points

B. Research Article Published in National, International Journal / Book Chapter Published				
First author: 7 Credit Point /Activity; Second author: 5 Credit Point /Activity. (Max. 2 activity)				
1.	Title			
	Name of Journal		ISSN/ISBN No.	
	Indexed In		Author Order	
	Publication Details	Year/Volume/Issue/Page Number		
2.	Title of Book			
	Publisher		ISBN No.	
	Publication Details	Edition / Year		

C. Paper / Poster presented in conference				
5 Credit Point /Activity (Max. 2 activity)				
1,	Title of Paper / Poster			
	Conference Details	Organized by		
		Place and Date		
2.	Title of Paper / Poster			
	Conference Details	Organized by		
		Place and Date		

D. Seminar/ Conference/ Workshop/ CPD/ FDP, etc Participated				
5 Credit Point /Activity (Max. 2 activity)				
Sr	Name of Program	Place & Date	Duration	Organized by
1.	MAHACONT	Seth G.S. medical college, mumbai	2 days	Seth G.S. medical College, Dept of
2.	multidisplinary conference	21st & 22nd February Jalgaon	1 days	Anatomy, mumbai IMA, Jalgaon

E. Contribution as Resource Person, Invited speaker, Reviewer, Session Chair, Members of Conference Committee (Not organized by own institute) / Patent/ Copy right				
8 Credit Point /Activity (Max. 2 activity)				
Sr	Name of Program	Place & Date	Contribution as	Organized by
1.	MAHACONT conference	Seth G.S. medical college mumbai	Chairperson	Dept. of Anatomy, Seth G.S. medical College, mumbai
2.				
Attached copy of all relevant document for Section II				

SECTION- III

Extension and Co-Curricular activities with Professional Development: (Total Credit Point: 30)

A. Participation in organizing curricular/ co-curricular/ extracurricular activities

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	College council	member	–	monthly meeting.
2.	Grivearce	member	Any paper related correctn	(Batch-2024)

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points Member of committee- 2 credit points)

B. Contribution in UG/PG Admission process/ Counselling/ Institutional Development (NAAC/NABH etc)

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	NAAC	HOD of Dept of Anatomy	Departmental file maintainance	
2.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points Member of committee- 2 credit points)

C. Participation in Administrative and other responsibility

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	Mentor - mentee	member	guidance to students.	
2.	Foundation course	co-ordinator	Time table preparation	6 month

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points Member of committee- 2 credit points)

SECTION- IV

Involvement of staff in other Activities/ Additional Academic Progress: (Total Credit Point: 20)

A. MoU made with organization/ Alumni work

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	–	–	–	–

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points Member of committee- 2 credit points)

B. Additional degree/ super speciality degree/ Ph.D./

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Program (course)	Place & Registration Date	Duration of Program	Present Status
1.				

C. Short courses / online courses done by faculty

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Course	Conducted by	Course Duration	Date of Result
1.	ACME	REM, mumbai	6 month	-
2.	CISP-III	muhs, Nashik	2 days	-

Attached copy of all relevant document

D. Any Award / Appreciation Certificate (Not from own Institution) received by faculty

5 Credit Point /Award or Appreciation Certificate (Max. 1 Consider)

Sub.: Regarding Conduct of University Practical Examinations and Assessment of Theory Papers.

Sir/Madam,

1. I am directed to inform you that Board of Examinations is pleased to appoint you as an 'Convenor/Examiner'. The details of your assignments are given in Appendix-A mentioned below. Please keep your appointment strictly confidential and address all the correspondance in connection to the Controller of Examinations.
2. This appointment is issued subject to the assumptions mentioned below:-
   - That none of you has any relation of the following type appearing in the class and faculty for which your appointment is made this examination of the University:-
     wife, husband, son, daughter, grand-son, grand-daughter, brother, sister, nephew, niece, uncle, grand-nephew, grand-niece, aunt, first cousin, son-in-law, daughter-in-law, brother-in-law and sister-in-law.
     (N.B. - Son, daughter, brother or sister will be understood to include also step-son, step-daughter, step-brother or step-sister as the case may be.)
   - That none of you is debarred from examination work by the parent or any other University.
   - That you are not a member of Board of Examinations.
   - That you are not undergoing Post Graduate examination of this University.
3. You are required to be in touch with the Principal and the Convenor for further details. Kindly specify your acceptance or non-acceptance online or by email to email id and telphone numbers to this office with a copy to the Convenor.
4. Kindly also note that during the period of Practical Examination, you will be given a job of assessment of Theory Answerbooks and you will not be permitted to leave the Exam Centre without completion of the said task. Valuation of Theory manuscripts is compulsory if allotted.
5. **Sr. External Examiner should be held responsible for checking IA marks of concerned subject as per norms of respective central council / commission.**
6. Your reply should reach the University within 7 days from the receipt of the appointment by SMS/Email/etc.; otherwise it will be teated as your non-acceptance for the same.
7. Please note that the University examination work is mandatory as per the provisions of Section-63(g) of the MUHS Act 1998. If it is refused without substantial ground, disciplinary action shall be initiated.
8. Please intimate this office, if you are holding any other appointment of the University, other than this appointment.
9. Your kind cooperation in smooth functioning of the examination is solicited.

Practical Examinations

Ref.No.MUHS/Pract/Appt/204364/2024 **CONFIDENTIAL** Date: 17-Aug-2024

To,
DR. Sarika Kate
Dr. Ulhas Patil Medical College & Hospital, Jalgaon
(8459238031, katesarika@ymail.com)

Sub.: Regarding Conduct of University Practical Examinations and Assessment of Theory Papers.

Sir/Madam,

1. I am directed to inform you that Board of Examinations is pleased to appoint you as an 'Convenor/Examiner'. The details of your assignments are given in Appendix-A mentioned below. Please keep your appointment strictly confidential and address all the correspondance in connection to the Controller of Examinations.
2. This appointment is issued subject to the assumptions mentioned below:-
   - That none of you has any relation of the following type appearing in the class and faculty for which your appointment is made, at this examination of the University:-
     wife, husband, son, daughter, grand-son, grand-daughter, brother, sister, nephew, niece, uncle, grand-nephew, grand-niece, aunt, first cousin, son-in-law, daughter-in-law, brother-in-law and sister-in-law.
     (N.B. - Son, daughter, brother or sister will be understood to include also step-son, step-daughter, step-brother or step-sister as the case may be.)
   - That none of you is debarred from examination work by the parent or any other University.
   - That you are not a member of Board of Examinations.
   - That you are not undergoing Post Graduate examination of this University.
3. You are required to be in touch with the Principal and the Convenor for further details. Kindly specify your acceptance or non-acceptance online or by email to email id and telphone numbers to this office with a copy to the Convenor.
4. Kindly also note that during the period of Practical Examination, you will be given a job of assessment of Theory Answerbooks and you will not be permitted to leave the Exam Centre without completion of the said task. Valuation of Theory manuscripts is compulsory if allotted.
5. **Sr. External Examiner should be held responsible for checking IA marks of concerned subject as per norms of respective central council / commission.**
6. Your reply should reach the University within 7 days from the receipt of the appointment by SMS/Email/etc.; otherwise it will be teated as your non-acceptance for the same.
7. Please note that the University examination work is mandatory as per the provisions of Section-63(g) of the MUHS Act 1998. If it is refused without substantial ground, disciplinary action shall be initiated.
8. Please intimate this office, if you are holding any other appointment of the University, other than this appointment.
9. Your kind cooperation in smooth functioning of the examination is solicited.

Sir/Madam,

With reference cited above, I am directed to inform you that, the proposal of approval to the appointment of the following teacher(s) has been considered by the University and it has been decided to grant the same, as indicated below:-

Sr. No.	Subject	Name of the teacher	Designation	Status of Approval
01	-	Dr.Prashant Vinayakrao Solanke	Dean	w.e.f. 03/01/2024 to 02/01/2026 for two years only.
02	Anatomy	Dr.Sarika Prakash kate	Associate Professor	* w.e.f. 03/01/2024 to 02/01/2026 for two years only.
03	Anatomy	Dr.Poonam Basavaraj Tenginkai	Assistant Professor	* w.e.f. 03/01/2024 to 02/01/2026 for two years only.
04	Anatomy	Dr. Preeti Pandurang Pawde	Assistant Professor	w.e.f. 03/01/2024 to 02/01/2025 for one years only. against SC category.
05	Physiology	Dr. Basavaraj Murlidhar Tenginkali	Assistant Professor	* w.e.f. 03/01/2024 to 02/01/2026 for two years only.
06	Biochemistry	Dr. Rupesh Kumar	Assistant Professor	w.e.f. 03/01/2024 to 02/01/2026 for two years only
07	Pathology	Dr. Nitin Motiram Bharambe	Associate Professor	* w.e.f. 03/01/2024 to 02/01/2026 for two years only.
08	Pathology	Dr.Pooja Laxman Khandwe	Assistant Professor	* w.e.f. 03/01/2024 to 02/01/2026 for two years only.
09	General Medicine	Dr. Suraj Vishnu Bhole	Assistant Professor	* w.e.f. 03/01/2024 to 02/01/2026 for two years only.
10	General Surgery	Dr. Anant Vijay Chopde	Assistant Professor	* w.e.f. 03/01/2024 to 02/01/2026 for two years only.
11	General Surgery	Dr. Mayur Vinod Barhate	Assistant Professor	* w.e.f. 03/01/2024 to 02/01/2026 for two years only.

1) *The approval granted by the University is subject to successful completion of at least one Medical Education Technology (MET) workshop conducted by the University, within the period of one year from the date of approval. If any teacher fails to comply with the said provision, the approval granted by the Vice-Chancellor shall stand cancelled automatically.

Staff Performance Self-Appraisal Report

Academic Year: From 01/08/2024 to 31/07/2025

Name of Faculty	PREETI PAWDE		
Qualification	M.Sc. Medical Anatomy	**Designation:**	Assistant Professor.
Department	Anatomy	**Date of Joining**	08/12/2023
University Approved faculty with Date	Yes, 15/7/2024	**Total Teaching Exp.:**	10 Yrs.

SECTION- I.
Teaching Learning and Evaluation: (Total Credit Points:40)

A. Teaching Load Details (15 Credit Points) — **To be filled by Faculty**

No. of Lectures /Practical Scheduled	No. of Lectures/ Practical Conducted	No. of Tutorials/ SGD Scheduled	No. of Tutorials/ SGD Conducted	No. of Seminar/ Demonstration Scheduled	No. of Seminar/ Demonstration Conducted	Overall Percentage of Attendance	Result of Subject
120	115	20	20	15	15	100 %	Satisfactory

Guidelines for Evaluation: - Teaching Load Conducted
(100% or more: 15 credit points ; 90 – 99 conducted: 12 credit points ; 80 – 89 % conducted: 9 credit points;
70 – 79 % conducted: 6 credit points; Below 69% conducted: 3 credit points)

B. Teaching Load Academic Schedule Details: (25 Credit Points) — **To be filled by Faculty**

Use of Pedagogical Aids in T-L method (5 credit points)	Paper setting/ Paper checking Departmental work (5 credit points)	Efforts taken for improvement of Students performance (5 credit points)	Project Guided to Students (5 credit points)	Funded Research Projects Undertaken (5 credit points)
Yes	Yes	Yes	No	No

SECTION: II
Research, Academic Contribution and Professional Achievements: (Total Credit Points:60)

A. Examination Duties at University level / College level: (10 credit points) — **To be filled by faculty**

Sr	Examination	Centre	Worked as External / Internal	Duration in Days
1.	I st term	DUPMC, Jalgaon	Internal	4 Days
2.	II nd term	DUPMC, Jalgaon	Internal	4 Days
3.	Preliminary exam	DUPMC, Jalgaon	Internal	7 Days
4.				
5.				

Guidelines for Evaluation: Duration of Examination: 1 day one credit point. Maximum 10 credit points

B. Research Article Published in National, International Journal / Book Chapter Published				
First author: 7 Credit Point /Activity; Second author: 5 Credit Point /Activity. (Max. 2 activity)				
1.	Title	Anatomical Study of Cranial Capacity & Sexual Dimorphism in Dried Adult Skull		
	Name of Journal	International Journal of Toxicology & Pharmacological Research.	ISSN/ISBN No.	
	Indexed In		Author Order	I st Author
	Publication Details	Year/Volume/Issue/Page Number	2024/14(9)/39-42	
2.	Title of Book			
	Publisher		ISBN No.	
	Publication Details	Edition / Year		

C. Paper / Poster presented in conference				
5 Credit Point /Activity (Max. 2 activity)				
1,	Title of Paper / Poster			
	Conference Details	Organized by		
		Place and Date		
2.	Title of Paper / Poster			
	Conference Details	Organized by		
		Place and Date		

D. Seminar/ Conference/ Workshop/ CPD/ FDP, etc Participated				
5 Credit Point /Activity (Max. 2 activity)				
Sr	Name of Program	Place & Date	Duration	Organized by
1.				
2.				

E. Contribution as Resource Person, Invited speaker, Reviewer, Session Chair, Members of Conference Committee (Not organized by own institute) / Patent/ Copy right				
8 Credit Point /Activity (Max. 2 activity)				
Sr	Name of Program	Place & Date	Contribution as	Organized by
1.				
2.				
Attached copy of all relevant document for Section II				

SECTION- III

Extension and Co-Curricular activities with Professional Development: (Total Credit Point: 30)

A. Participation in organizing curricular/ co-curricular/ extracurricular activities

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.				
2.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

B. Contribution in UG/PG Admission process/ Counselling/ Institutional Development (NAAC/NABH etc)

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.				
2.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

C. Participation in Administrative and other responsibility

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.				
2.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

SECTION- IV

Involvement of staff in other Activities/ Additional Academic Progress: (Total Credit Point: 20)

A. MoU made with organization/ Alumni work

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

B. Additional degree/ super speciality degree/ Ph.D./

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Program (course)	Place & Registration Date	Duration of Program	Present Status
1.				

C. Short courses / online courses done by faculty

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Course	Conducted by	Course Duration	Date of Result
1.				
2.				

Attached copy of all relevant document

D. Any Award / Appreciation Certificate (Not from own Institution) received by faculty

5 Credit Point /Award or Appreciation Certificate (Max. 1 Consider)

Sr	Name of Award	Place & Date	Local/ State/ any other	Awarding agency
1.				
2.				

Attached copy of all relevant document

SECTION- V
Other Information

A. Leave taken by faculty / Absent from the Institute with details: (From 01/08/2024 to 31/07/2025)

Abstract

Background: Cranial capacity, like other body dimensions, is influenced by geography, race, gender, and age. This study aims to explore the gender differences in cranial capacities in human skulls from the North Indian region. The primary objective is to measure cranial capacities and assess sexual dimorphism, which may assist in determining the sex of an individual from skeletal remains.

Methods: It was made sure that all the skulls were intact and undamaged and included after sex determination based on the anatomical features. Skulls with the ambiguity of sex or those with damage were excluded from the study. The direct measurement of cranial capacity was done by sealing skull foramina with clay to prevent seed spillage. The Cranial cavities were filled with mustard seeds through the foramen magnum. The seeds were added gradually while shaking the skull to ensure full coverage. The seeds were then poured into a glass jar and transferred to a 1000 cc glass cylinder, where the volume was measured.

Results: The important findings of this study regarding the skull dimensions showed that the mean length of male skulls was Male: 168.5 ± 7.8 mm and females: 161.2 ± 9.2 mm. The cranial volume in male skulls was 1324.19 ± 35.29 cc versus in Female skulls was 1167.32 ± 50.63 cc There were clear differences in skull dimensions between males and females, with males generally having longer skulls and larger cranial capacities. Within each sex group, there is considerable variation in skull dimensions, highlighting individual differences. Most skulls in both groups fall within the mesocephalic range, indicating a typical skull size. However, a smaller percentage of individuals exhibit microcephaly or megacephaly.

Conclusion: Within the limitations of the current study, we found there is a statistically significant difference in cranial capacity between male and female skulls, with males generally having larger cranial volumes. Within each sex group, there is a considerable amount of variation in cranial capacity, indicating individual differences.

Keywords: Cranial Capacity, cranial volume, Sexual dimorphism, Skull Length.

Introduction

Cranial capacity is a measure of brain volume in vertebrates that have both a skull and a brain [1]. It is often used to estimate the size of the human brain, and it is indirectly used to determine the volume of the human brain [2]. This sub-analysis of anthropometry helps identify an individual's cranial features. Similar to other aspects of the physical structure. Cranial capacity depends on environmental, ecological, biological, geographical, racial, sex, and age factors [3]. Sex identification is very important in medicolegal cases, and the skull and pelvis are instrumental in this process [4]. It has been possible to use different parameters of the skull head, size, and shape to help differentiate human skulls based on whether they belong to males or females [5]. Cranial capacity is associated with the size of the brain, is used to identify race-based features, and is usually assessed in physical anthropological research. The majority of research works on the subject seek to

establish how basic elements, such as race, geographical location, ethnicity, and diet, affect cranial capacity [6]. In light of this, as described by Todd the accuracy of results based on measurements of the human skull shall be obtained when the two skulls belong to the same race as pointed out by Lee and Pearson [7]. Pearson also mentioned some variables such as age, sex, and whether the skull was fresh or dried could influence the measure which is why the formula cannot be used for fresh skulls [7]. Shukla et al. [8] noticed a large difference among Indian skulls; the mean value was 1370 ml with SD = 5. Thomas et al. [9] dissected various approaches to measuring cranial capacity, noting that it is still used in anthropology and clinical practice because it is proportional to the actual brain size. Hwang et al. [10] attempted to measure the cranial capacity of Korean adults by pouring rice seeds inside the cranial cavity and subsequently measuring it with a graduated cylinder which resulted in an average cranial capacity of 1470 cc in male skulls and 1317 cc in female skulls. With this background, we in the current study tried to determine the gender variations of cranial capacities in dried adult human skulls available in the department of Anatomy of our Medical College.

Material and Methods

This study was done in the Department of Anatomy, Medical College. 80 dried adult human skulls were included in the study out of which 50 were males and 30 were females. It was made sure that all the skulls were intact and undamaged and included after sex determination based on the anatomical features. Skulls with the ambiguity of sex or those with damage were excluded from the study.

The skulls were placed on the rubber ring and their lengths were taken from glabella to inion. To establish the breadth, the distance from the two parietal eminences above the zygomatic arch was considered. The heights of the vertebrae and the bones of the countertop were measured from the basion (the anterior margin of the foramen magnum in the median plane) to the bregma using spreading calipers. In the case of each parameter, the average of the three measurements that were made was calculated. The Skull foramina was sealed with clay to prevent seed spillage. The Cranial cavities were filled with mustard seeds through the foramen magnum. The seeds were added gradually while shaking the skull to ensure full coverage. The seeds were then poured into a glass jar and transferred to a 1000 cc glass cylinder, where the volume was measured. The skulls were classified as Microcephalic: Males: Cranial volumes below approximately 1350 cc are typically considered microcephalic. Females: Cranial volumes below approximately 1200 cc fall into this category. Mesocephalic: Males: Cranial volumes between 1350 cc and 1450 cc. Females: Cranial volumes between 1200cc and 1300cc. Megacephalic: Males: Cranial volumes above 1450cc are categorized as megacephalic. Females: Cranial volumes above 1300cc. The data was statistically analyzed using a Z test, with significance set at $p < 0.05$.

Results

Out of the total 80 dried skulls which included 50 male skulls and 30 female skulls. The measurement of the length of skulls was done. Table 1 shows the comparison of skull lengths (in millimeters) between male and female skulls. Males generally have larger skulls than females. The majority of skulls in both groups fall within the 161-180 mm range. The mean skull length in males was 173.65 ± 20.5 mm and the mean length of female skulls was 169.89 ± 10.33 mm. The results suggest that there is a degree of sexual dimorphism in skull length, with males tending to have longer skulls than females. This is consistent with findings from previous studies.

Table 1: Distribution of Length (mm) of the skulls included in the study

Length of skull in mm	Male	Female	Total(%)
<150	1(2.0%)	3(10.0%)	4 (5.0%)
150-160	1(2.0%)	4(15.0%)	5 (6.25%)
161-170	11(22.0%)	6(20.0%)	17 (21.25%)
171-180	28(56.0%)	13(40.0%)	41 (51.25%)
181-190	9(18.0%)	4(15.0%)	13 (16.25%)
Total	50(100%)	30(100%)	80 (100%)

Table 2 provides a comparison of cranial volumes (in milliliters) between male and female individuals. The data is categorized into three groups: microcephalic, mesocephalic, and megacephalic. A higher percentage of females were classified as microcephalic compared to males. The majority of individuals in both groups fell into the mesocephalic category, indicating a typical skull size. A slightly higher percentage of males were classified as megacephalic compared to females. The results suggest a potential difference in cranial volume distribution between males and females. Males tend to have a slightly higher proportion of individuals with larger cranial volumes (megacephalic), while females have a slightly higher proportion with smaller cranial volumes

(microcephalic). Within each group, there is a significant amount of variation in cranial volume. This highlights the individual differences that exist even within the same-sex category.

Table 2: Direct cranial volume (mL) distribution of skulls studied

Cranial volume measurement (mL)	Male	Female	Total(%)
Microcephalic	15 (30.0%)	10 (33.3%)	25 (31.25%)
Mesocephalic	30 (60.0%)	17 (56.67%)	47 (58.75%)
Megacephalic	5 (10.0%)	3 (10.0%)	8 (10.0%)
Total	50(100%)	30(100%)	80 (100%)

Table 3 presents a comparison of cranial capacity (in cubic centimeters or cc) between male and female skulls. Male skulls have a slightly larger range of cranial capacities compared to female skulls. Male skulls have a significantly higher mean cranial capacity (1324.19 cc) than female skulls (1167.32 cc). Female skulls exhibit a slightly higher standard deviation (50.63 cc) compared to male skulls (35.29 cc), indicating greater variability in cranial capacity among females. The observed p-value of 0.0192 suggests that the difference in mean cranial capacity between males and females is statistically significant. The results confirm the existence of sexual dimorphism in cranial capacity, with males generally having larger skulls than females.

Table 3: Range, Mean, and SD Of Cranial Capacity in Male and Female Skulls

Gender	Male	Female
Range (cc)	1250-1430	1150-1380
Mean (cc)	1324.19	1167.32
Std. Deviation	35.29	50.63
Observed p-value	0.0192*	

* Significant

Discussion

Several studies have used cranial capacity estimates that applied several methods, such as linear measurements, packing techniques, and radiography. The most precise and reliable method is when the cranial capacity is directly measured by filling the space in the dry skulls with mustard or rye seeds and then transferring them to a cylinder. The smaller the size of the filler the better quantification as there will be less space loss in close packing. Therefore, in the current study for dry skulls, we also used the mustard seeds for direct estimation of the cranial capacity. In the current study population, the cranial capacity was found to be 1324.19 cc in males and 1167 cc in females using the direct method of estimation. In the calculation of the cranial volume using Lee Pearson's formula, the mean cranial volume was 1295.67 cc in males and 1175.54 in females. The Spheroidal formula yielded values of 1310. 24 cc in males and 1125.54 cc in females, which is consistent with the current study [11, 12]. Differences may arise as these values were derived from formulas based on linear skull dimensions. The cranial capacity of male and female students from Mugla University, Turkey, was determined from the linear head dimensions, and the mean values obtained were 1411.64 ± 118.9cc for males and 1306 ± 162.9 cc for females. This study revealed that the males had larger mean values for cranial capacity than the females ($p<0.05$). In the same manner, in the present study, the F-Ratio was highly significant indicating a significant sexual dimorphism in the skulls. In a similar study by MB Maina et al. [14] with 300 participants; 150 males and 150 females analyzed cranial dimensions and got the cranial capacities of the male (mean 1424.4 ± SD 137. 9 ccs) were significantly greater than females (mean $1331.3 \pm SD\ 201.8$ cc) ($P < 0.001$). Cranial length and height were significantly larger in males, a finding consistent with the present study. In Hwang et al. [10] study, using rice seeds, cranial capacity was determined to be 1470 ± 107 cc in males and 1317 ± 117 cc in females. Similarly, Lalwani et al. [15] in a study of 100 male and 60 female skulls mean capacities of 1302cc were recorded. The range of value for male skulls was from 1070 – 1560 cc and the mean value was 1302.95 ± 108.8 cc in close agreement with the observations of this study with the mean capacity of males being 1324.19cc. For females, they found the range was 1000 to 1420 cc and the mean value was 1179.92 ± 97.08 cc in the current study the mean values of females were 1167.32 again in agreement with their observations. Lalwani et al. [15] found highly *significant sexual dimorphism* with z-test values of p were 0.01 in agreement with the results of the current study. All these studies indicate that the amount of cranial capacity is indeed greater in the male population than in the female population. The appears to be an agreement with the results of this estimation across all the authors with different ethnicities and races that there is a significant sexual dimorphism in the

cranial capacity between males and females with males having larger volume than females.

Conclusion

Within the limitations of the current study, we found there is a statistically significant difference in cranial capacity between male and female skulls, with males generally having larger cranial volumes. Within each sex group, there is a considerable amount of variation in cranial capacity, indicating individual differences. The majority of skulls in both groups fall within the mesocephalic range, indicating a typical skull size. However, a smaller percentage of individuals exhibit microcephaly or megacephaly. While the data suggests a genetic component to cranial capacity differences, environmental factors and population-specific characteristics may also play a role.

Staff Performance Self-Appraisal Report

Academic Year: From 01/08/2024 to 31/07/2025

Name of Faculty	Dr. Ranjana chandrakant Shingne		
Qualification	MD, Physiology	**Designation:**	Professor & HOD
Department	Physiology	**Date of Joining** –	05/05/2017
University Approved faculty with Date	Approved - 19/09/2024	**Total Teaching Exp.:**	13 Yrs

SECTION- I.
Teaching Learning and Evaluation: (Total Credit Points:40)

A. Teaching Load Details (15 Credit Points) — To be filled by Faculty

No. of Lectures /Practical Scheduled	No. of Lectures/ Practical Conducted	No. of Tutorials/ SGD Scheduled	No. of Tutorials/ SGD Conducted	No. of Seminar/ Demonstration Scheduled	No. of Seminar/ Demonstration Conducted	Overall Percentage of Attendance	Result of Subject
38	38	09	09	75	75	100 %	93.5 %

Guidelines for Evaluation: - Teaching Load Conducted
(100% or more: 15 credit points ; 90 – 99 conducted: 12 credit points ; 80 – 89 % conducted: 9 credit points;
70 – 79 % conducted: 6 credit points; Below 69% conducted: 3 credit points)

B. Teaching Load Academic Schedule Details: (25 Credit Points) — To be filled by Faculty

Use of Pedagogical Aids in T-L method (5 credit points)	Paper setting/ Paper checking Departmental work (5 credit points)	Efforts taken for improvement of Students performance (5 credit points)	Project Guided to Students (5 credit points)	Funded Research Projects Undertaken (5 credit points)
Yes	Yes	Yes	Yes	No

SECTION: II
Research, Academic Contribution and Professional Achievements: (Total Credit Points:60)

A. Examination Duties at University level / College level: (10 credit points) — To be filled by faculty

Sr	Examination	Centre	Worked as External / Internal	Duration in Days
1.	Ist MBBS MUHS Practical Exam	DUPMC, Jalgaon KH	Convenor	07
2.	Ist MBBS MUHS Practical Exam	GMC, Jalgaon	Internal	02
3.	Ist MBBS MUHS Practical Exam	Dr. PDMMC, Amravati	External	03
4.	Ist MBBS MUHS Practical Exam	Dr. PDMMC, Amravati	External	01
5.	Ist BPTh MUHS Practical (2022) Exam	V.S.P.M's College of Physiotherapy Nagpur	External	02

Guidelines for Evaluation: Duration of Examination: 1 day one credit point. Maximum 10 credit points

B. Research Article Published in National, International Journal / Book Chapter Published

First author: 7 Credit Point /Activity; Second author: 5 Credit Point /Activity. (Max. 2 activity)

1.	Title	Awareness & knowledge about Polycystic Ovarian Syndrome among medical and Paramedical students		
	Name of Journal	African Journal of Biomedical Research	ISSN/ISBN No.	1119-5096
	Indexed In	Open Access	Author Order	2nd
	Publication Details	Year/Volume/Issue/Page Number	2024, Vol-27, PN. 1031-1036	
2.	Title of Book			
	Publisher		ISBN No.	
	Publication Details	Edition / Year		

C. Paper / Poster presented in conference

5 Credit Point /Activity (Max. 2 activity)

1,	Title of Paper / Poster			
	Conference Details	Organized by		
		Place and Date		
2.	Title of Paper / Poster			
	Conference Details	Organized by		
		Place and Date		

D. Seminar/ Conference/ Workshop/ CPD/ FDP, etc Participated

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Program	Place & Date	Duration	Organized by
1.	IAPSM Maharashtra chapter & IPHA Maharashtra conference	Dr. Vilhas Patil medical college & Hospital, Jalgaon Kh. Dt. 18/01/2025	1 day	PSM Dept. DUPMC, Jalgaon Kh.
2.	Webinar - Positive psychology & connectedness for a healthy lifestyle	Geetanjali medical college & Hospital, Udaipur Dt. 28/09/2024	1 day	Association of Physiologists of Rajasthan

E. Contribution as Resource Person, Invited speaker, Reviewer, Session Chair, Members of Conference Committee (Not organized by own institute) / Patent/ Copy right

8 Credit Point /Activity (Max. 2 activity)

Sr	Name of Program	Place & Date	Contribution as	Organized by
1.				
2.				

Attached copy of all relevant document for Section II

SECTION- III

Extension and Co-Curricular activities with Professional Development: (Total Credit Point: 30)

A. Participation in organizing curricular/ co-curricular/ extracurricular activities

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	Mentor	Incharge	Guidence & Problem Solving	1 Yr
2.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

B. Contribution in UG/PG Admission process/ Counselling/ Institutional Development (NAAC/NABH etc)

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	Antiragging committee	Incharge	Guidence & Problem Solving	1 Yrs.
2.	NAAC Accridition committee	member	Preparation for NAAC accridition	2 Yrs.

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

C. Participation in Administrative and other responsibility

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	Gender Harrassment committee	member	Assisted in allotted work	2 Yr.
2.	Skill Lab	member	Assisted in allotted work	2 Yr.

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

SECTION- IV

Involvement of staff in other Activities/ Additional Academic Progress: (Total Credit Point: 20)

A. MoU made with organization/ Alumni work

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

B. Additional degree/ super speciality degree/ Ph.D./

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Program (course)	Place & Registration Date	Duration of Program	Present Status
1.				

C. Short courses / online courses done by faculty

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Course	Conducted by	Course Duration	Date of Result
1.				
2.				

Attached copy of all relevant document

D. Any Award / Appreciation Certificate (Not from own Institution) received by faculty

5 Credit Point /Award or Appreciation Certificate (Max. 1 Consider)

Sr	Name of Award	Place & Date	Local/ State/ any other	Awarding agency
1.				
2.				

Attached copy of all relevant document

SECTION- V
Other Information

A. Leave taken by faculty / Absent from the Institute with details: (From 01/08/2024 to 31/07/2025)

1) *The approval granted by the University is subject to successful completion of at least one Medical Education Technology (MET) workshop conducted by the University, within the period of one year from the date of approval. If any teacher fails to comply with the said provision, the approval granted by the Vice-Chancellor shall stand cancelled automatically.

2) The approval granted by the University is valid till the above said teacher is in the services (teaching) of your College or attains the age of superannuation, whichever happens earlier. However, it is mandatory to prepare the Reservation Roster and get it approved from the appropriate authorities & fill up the post permanently as early as possible.

3) This temporary approval is granted subject to the rules and regulations of the University, from time to time, and shall be liable to be cancelled or amended, at any time, without prior notice.

4) A copy of this letter may be handed over to concerned Teacher.

Sub.: Regarding Conduct of University Practical Examinations and Assessment of Theory Papers.

Sir/Madam,

1. I am directed to inform you that Board of Examinations is pleased to appoint you as an 'Convenor/Examiner'. The details of your assignments are given in Appendix-A mentioned below. Please keep your appointment strictly confidential and address all the correspondance in connection to the Controller of Examinations.
2. This appointment is issued subject to the assumptions mentioned below:-
   - That none of you has any relation of the following type appearing in the class and faculty for which your appointment is made, at this examination of the University:-
     wife, husband, son, daughter, grand-son, grand-daughter, brother, sister, nephew, niece, uncle, grand-nephew, grand-niece, aunt, first cousin, son-in-law, daughter-in-law, brother-in-law and sister-in-law.
     (N.B. - Son, daughter, brother or sister will be understood to include also step-son, step-daughter, step-brother or step-sister as the case may be.)
   - That none of you is debarred from examination work by the parent or any other University.
   - That you are not a member of Board of Examinations.
   - That you are not undergoing Post Graduate examination of this University.
3. You are required to be in touch with the Principal and the Convenor for further details. Kindly specify your acceptance or non-acceptance online or by email to email id and telphone numbers to this office with a copy to the Convenor.
4. Kindly also note that during the period of Practical Examination, you will be given a job of assessment of Theory Answerbooks and you will not be permitted to leave the Exam Centre without completion of the said task. Valuation of Theory manuscripts is compulsory if allotted.
5. **Sr. External Examiner should be held responsible for checking IA marks of concerned subject as per norms of respective central council / commission.**
6. Your reply should reach the University within 7 days from the receipt of the appointment by SMS/Email/etc.; otherwise it will be teated as your non-acceptance for the same.
7. Please note that the University examination work is mandatory as per the provisions of Section-63(g) of the MUHS Act 1998. If it is refused without substantial ground, disciplinary action shall be initiated.
8. Please intimate this office, if you are holding any other appointment of the University, other than this appointment.
9. Your kind cooperation in smooth functioning of the examination is solicited.

Sub.: Regarding Conduct of University Practical Examinations and Assessment of Theory Papers.

Sir/Madam,

1. I am directed to inform you that Board of Examinations is pleased to appoint you as an 'Convenor/Examiner'. The details of your assignments are given in Appendix-A mentioned below. Please keep your appointment strictly confidential and address all the correspondance in connection to the Controller of Examinations.
2. This appointment is issued subject to the assumptions mentioned below:-
   - That none of you has any relation of the following type appearing in the class and faculty for which your appointment is made, at this examination of the University:-
     wife, husband, son, daughter, grand-son, grand-daughter, brother, sister, nephew, niece, uncle, grand-nephew, grand-niece, aunt, first cousin, son-in-law, daughter-in-law, brother-in-law and sister-in-law.
     (N.B. - Son, daughter, brother or sister will be understood to include also step-son, step-daughter, step-brother or step-sister as the case may be.)
   - That none of you is debarred from examination work by the parent or any other University.
   - That you are not a member of Board of Examinations.
   - That you are not undergoing Post Graduate examination of this University.
3. You are required to be in touch with the Principal and the Convenor for further details. Kindly specify your acceptance or non-acceptance online or by email to email id and telphone numbers to this office with a copy to the Convenor.
4. Kindly also note that during the period of Practical Examination, you will be given a job of assessment of Theory Answerbooks and you will not be permitted to leave the Exam Centre without completion of the said task. Valuation of Theory manuscripts is compulsory if allotted.
5. **Sr. External Examiner should be held responsible for checking IA marks of concerned subject as per norms of respective central council / commission.**
6. Your reply should reach the University within 7 days from the receipt of the appointment by SMS/Email/etc.; otherwise it will be teated as your non-acceptance for the same.
7. Please note that the University examination work is mandatory as per the provisions of Section-63(g) of the MUHS Act 1998. If it is refused without substantial ground, disciplinary action shall be initiated.
8. Please intimate this office, if you are holding any other appointment of the University, other than this appointment.
9. Your kind cooperation in smooth functioning of the examination is solicited.

ABSTRACT-

Background - Polycystic ovarian syndrome (PCOS) is the most common endocrine disorder and cause of infertility among women of reproductive age group.

Aim and objectives-To access awareness and knowledge towards polycystic ovarian syndrome among healthcare related students.

Materials and Methods- The study included 176 students of medical and paramedical background. Online questionnaires were prepared and link was provided to fill only one entry per student. Data was analysed by using MS-excel and Minitab- 17 statistical software.

Results- A total of 176 students were participated in the study of whom 117 were females and 59 were males. The result showed good level of knowledge of PCOS in 61.54% of females and 52.54% of males. With respect to awareness level, 69.49% of males and 64.96% of females have good awareness level of PCOS. On comparision of knowledge levels of three groups i.e. MBBS, BHMS and BPT; average knowledge score of MBBS group was 11.14, BHMS group was 10.85 and BPTH group was 9.58. The F value of ANOVA test was 3.82 with p value 0.024. The p value less than 0.05, shows significant difference in the average knowledge level among all three groups.

Conclusion- Although, majority of students have the basic knowledge of PCOS, but the periodic academic activities like seminars are required to upgrade the information about PCOS.

Keywords- Polycystic ovarian syndrome (PCOS), knowledge, awareness, medical students, paramedical students

"This article has been published in the African Journal of Biomedical Research"

Introduction – Polycystic ovarian syndrome (PCOS) is the most common endocrinopathy affecting women of reproductive age group throughout the globe. About 5 to 10% of women of reproductive age are affected by PCOS (1, 2). It is characterized by hirsutism, menstrual irregularities, obesity, acne, and alopecia (3). This not only affects the fertility of the women but predisposes them to the risk to diabetes mellitus and depression as well (4, 5). As per evidences that poor awareness of PCOS may lead to negative outcomes for women (6). The real cause of the syndrome has not been yet identified precisely and symptoms of presentation vary greatly from case to case, which makes it a challenge for physician to diagnose (7). However, it is very crucial to be diagnosed in early age to reduce the disease undesirable complications of PCOS. PCOS has a complicated and poorly known aetiology. Increased androgen and /or insulin together cause the underlying hormonal imbalance. The aetiology of PCOS includes factors such as obesity, ovarian dysfunction, hypothalamic pituitary abnormalities, and genetic and rapidly changing lifestyle that lead to hormonal disruptions (8).Women with PCOS are more likely to be obese, have dyslipidemia, develop type II diabetes, and may experience cardiovascular problems due to a higher frequency of endothelial dysfunction, inflammation, hypertension, hyperlipidemia, and subclinical atherosclerosis (8). It raises the possibility of miscarriages, premature births, neonatal problems, and abnormalities in the developing foetus (9, 10). A number of studies have shown the link between gynecological malignancies and PCOS (11). PCOS patients have a higher risk of cancer due to hormonal imbalance and a longer ovulatory state (11). According to results of a meta-analysis, women with PCOS are three times more likely to develop endometrial cancer than other women (11, 12). Furthermore, it has been discovered that PCOS is linked to a significant amount of stress due to the psychological and physical problems such as obesity and infertility (13). In fact, delayed PCOS diagnosis is linked with anxiety and depression (14, 15). Research indicates that women are more vulnerable to psychiatric disorders when they experience hormonal fluctuations, which is a typical clinical manifestation of PCOS.

In addition, there has been a rise in interest in the psychological aspects of PCOS. According to previous researches, 56.9% of women with PCOS have at least one psychiatric illness (16-18), and women with PCOS have been found to have increased rates of psychiatric disorders, especially anxiety, bipolar disorder and depressive disorder (19-21). Furthermore, a study showed that PCOS patient's quality life is impacted by comorbid psychiatric problems (22). While aforementioned research has shed light on the relationship between PCOS and co-occurring psychiatric disorders, the majority of these findings are derived from cross-sectional studies and do not use a longitudinal approach. Furthermore, rather than being diagnosed by a Psychiatrist, psychiatric disorders were frequently assessed in these research using rating measures like the Hamilton depression rating scale, the Beck depression inventory, or the Mini International Neuropsychiatric Interview (23-25). A lower quality of life may result in undiagnosed disease due to lack of knowledge about disease and its symptoms. Early diagnosis is essential to take necessary measures to prevent progress of PCOS. Thus, this study is intended to make awareness regarding PCOS which is playing major role in female infertility and also making aware of obesity related complications.

Materials and Methods: This cross sectional study was conducted among first year MBBS (Bachelor of Medicine, Bachelor of Surgery) students at Dr Ulhas Patil Medical College and Hospital, first year BHMS (Bachelor of Homeopathic Medicine and Surgery) students at Dr Ulhas Patil Homeopathic Medical College and Hospital and first year BPT (Bachelor of Physiotherapy) students at Dr Ulhas Patil College of Physiotherapy, Jalgaon, Maharashtra, India. After obtaining approval from Institutional ethical committee, study was conducted for a period of 2 months. Close ended questionnaires were given to the all students through online mode.

Sample size- Total of 176 students was participated in the study. Among 176 students, 106 students were from Dr Ulhas Patil Medical College and Hospital, 20 students were from Dr Ulhas Patil Homeopathic Medical College and Hospital and 50 students were from Dr Ulhas Patil College of Physiotherapy, Jalgaon, Maharashtra, India.

Statistical analysis- Online responses were transferred to a excel sheet and data analysis was done by using MS-excel and Minitab- 17 statistical software.

Results:

In our study, it has been observed that 61.54% of females having good knowledge of PCOS. In other hands, 52.54% of males have good knowledge of PCOS. 28.21% of females and 42.37% of males have average knowledge of PCOS. 10.26% of females and 5.08% of males had poor knowledge. In terms of awareness, 69.49% of males and 64.96% of females have good awareness level of PCOS. With respect to average awareness level, 23.73% of males and 18.80% of females have average awareness level. 16.24 % of females and 4% of males have poor awareness of PCOS.

Knowledge	Score	Male		Female		Total	
		Freq	%	Freq	%	Freq	%
Poor	0-5	3	5.08	12	10.26	15	8.52
Average	6-10.	25	42.37	33	28.21	58	32.95
Good	11-15.	31	52.54	72	61.54	103	58.52

Awareness	Score	Male		Female		Total	
		Freq	%	Freq	%	Freq	%
Poor	0-4	4	6.78	19	16.24	23	13.07
Average	5-8.	14	23.73	22	18.80	36	20.45
Good	9-13.	41	69.49	76	64.96	117	66.48

Table 2: Gender wise assessment of awareness level of students

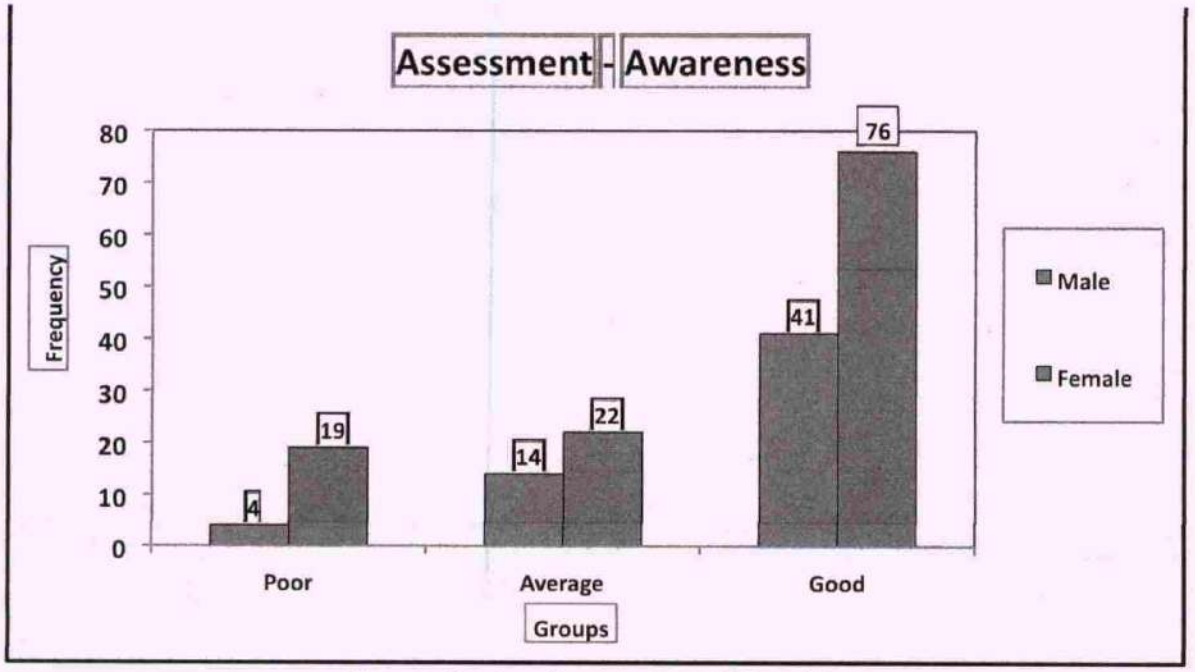

Figure 2: Gender wise assessment of Knowledge

One way ANOVA was used to compare the knowledge levels of three groups i.e. MBBS, BHMS and BPT. Average knowledge score of MBBS group was 11.14 with standard deviation of 3.55. Average knowledge score of BHMS group was 10.85 with standard deviation of 2.56. Average knowledge score of BPTH group was 9.58 with standard deviation of 3.01. The F value of ANOVA test was 3.82 with p value 0.024. The p value less than 0.05, shows significant difference in the average knowledge level. One way ANOVA was used to compare the awareness levels of three groups. Average awareness score of MBBS group was 9.66 with standard deviation of 3.52. Average awareness score of BHMS group was 8.90 with standard deviation of 3.79. Average awareness score of BPTH group was 8.38 with standard deviation of 3.31. The F value of ANOVA test was 2.36 with p value 0.097. The p value more than 0.05, shows no significant difference in the average awareness level.

Course	N	Mean	SD	F value	p value
MBBS	106	11.14	3.55	3.82	0.024
BHMS	20	10.85	2.56		
BPT	50	9.58	3.01

Course	N	Mean	SD	F value	p value
MBBS	106	9.66	3.52	2.36	0.097
BHMS	20	8.90	3.79		
BPT	50	8.38	3.31		

Table 4: Course wise comparison of average awareness level of students

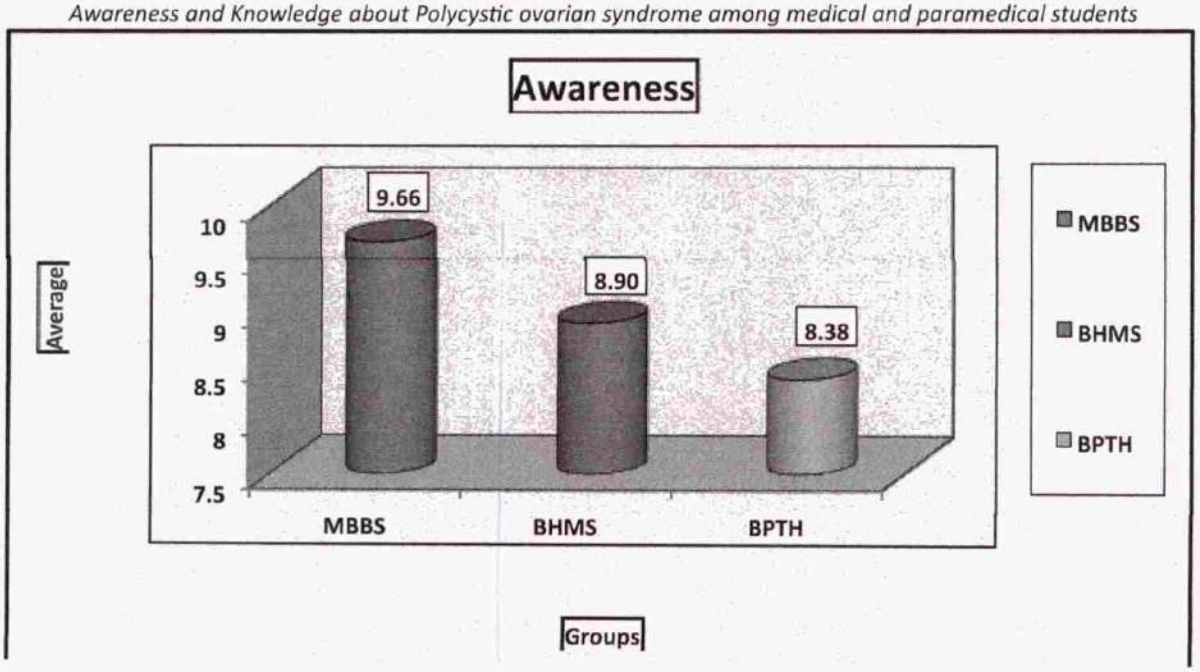

Figure 4: Course wise comparison of average awareness level

Discussion: PCOS is a heterogeneous endocrine condition with a variety of metabolic and reproductive pathological characteristics. Due to their changing lifestyle and dietary pattern, it is becoming an issue among adolescents and reproductive age group females. For the right steps to be taken, it is imperative that people become more aware about PCOS and its symptoms.

Majority of our female medical and paramedical students have good knowledge and awareness of PCOS. In our study female students have good knowledge and awareness level as compared to male. Similarly, study conducted by R Sasikala et al found that female nursing students had good knowledge as compared to male nursing students ($p<0.01$) (26). Another research from Subhashree et al found that female medical students had good knowledge as compared to male students (27). As per Abantika et al, overall awareness about possible complications of PCOS was better in males as compared to females (28), which is just opposite to our findings. Educational profile plays vital role in acquiring knowledge of PCOS as evident in the present study which is due to various health education programmes and attitude towards practices. Knowledge level of PCOS is highly significant in MBBS students (Mean: 11.14 ± 3.55) than BHMS (Mean: 10.85 ± 2.56) and BPT (Mean: 09.58 ± 3.01) students. F value of ANOVA test was 3.82 with p value 0.024 ($p<0.05$ is statistically significant).

Conclusion: Polycystic ovarian syndrome is a growing medical concern. Despite its growing incidence, knowledge and awareness of the disease remain constrained. Social and environmental factors might have major influence, and the management is primarily centered on lifestyle modification. Thus, knowledge and awareness about disease is essential, especially for those pursuing medical education. Even though the illness exclusively affects women, all medical and paramedical students should be aware of the symptoms and the required lifestyle changes.

Acknowledgement: The authors would like to thank all medical and paramedical students who participated in this study.

Sub Temporary Approval to the appointment of teacher...
Ref.: 1)University Direction No. 01/2017 dated 13/04/2017,
२)महाविद्यालयाचे पत्र क्र. गोफा/डॉयुपीएमसी/ शिक्षकमान्यता/२०२४/३८० दि.१८/०७/२०२४

Sir/Madam,

With reference cited above, I am directed to inform you that, the proposal of approval to the appointment of the following teacher(s) has been considered by the University and it has been decided to grant the same, as indicated below:-

Sr. No.	Subject	Name of the teacher	Designation	Status of Approval
01	-	Dr.Prashant Vinayakrao Solanke	Dean	w.e.f. 15/07/2024 to 14/07/2026 for two years only.
02	Anatomy	Dr. Amrut A. Mahajan	Professor	w.e.f. 15/07/2024 to 11/05/2025 for only. Age is above 64years
03	Anatomy	Dr.Sarika Prakash kate	Associate Professor	*w.e.f. 15/07/2024 to 14/07/2026 for two years only.
04	Anatomy	Dr.Shubhangi B.Ghule Nee: Shubhangi K. Wagh	Associate Professor	w.e.f. 15/07/2024 to 14/07/2026 for two years only.
05	Anatomy	Dr. Preeti Pandurang Pawde	Assistant Professor	w.e.f. 15/07/2024 to 14/07/2026 for two years only.
06	Physiology	Dr.Shingne Ranjana Chandrakant	Associate Professor	w.e.f. 15/07/2024 to 14/07/2026 for two years only
07	Physiology	Dr. Santosh Kumar Jha	Assistant Professor	*w.e.f. 15/07/2024 to 14/07/2026 for two years only.
08	Biochemistry	Dr.Nilima Vivek Patil	Professor	*w.e.f. 15/07/2024 to 14/07/2026 for two years only
09	Biochemistry	Dr. Randhir Kumar Pande	Assistant Professor	*w.e.f. 15/07/2024 to 14/07/2026 for two years only.
10	Pharmacology	Dr. Devendra R. Chaudhari	Professor	w.e.f. 15/07/2024 to 14/07/2026 for two years only.
11	Pharmacology	Dr. Suyog S. Chopade	Associate Professor	w.e.f. 15/07/2024 to 14/07/2026 for two years only.
12	Pharmacology	Dr. Bapurao M. Bite	Assistant Professor	w.e.f. 15/07/2024 to 14/07/2026 for two years only.
13	Pathology	Dr. Dhananjay Shridhar Borole	Professor	w.e.f. 15/07/2024 to 14/07/2026 for two years only.
14	Pathology	Dr. Nitin M. Bharambe	Associate Professor	*w.e.f. 15/07/2024 to 14/07/2026 for two years only.

Sr. No.	Subject	Name of the teacher	Designation	Status of Approval
15	Pathology	Dr. Shridhar Pandurang Patil	Assistant Professor	w.e.f. 15/07/2024 to 14/07/2026 for two years only.
16	Microbiology	Dr. Kailash Bhimrao Wagh	Professor	w.e.f. 15/07/2024 to 14/07/2026 for two years only.
17	Microbiology	Dr.Smita Sahebrao Mundhe	Associate Professor	*w.e.f. 15/07/2024 to 14/07/2026 for two years only.

Sir/Madam,

Subject: KNRUHS Examinations – Conduct of BDS Practical Examinations - Appointment of External Examiners - Regarding.

****

I am by direction to inform you that you have been appointed as **"External Examiner"** for conduct of **BDS Year-I Practicals & Viva voce examinations** to be held on the following dates at the examination center mentioned.

Details of Assignment

Examination Centre & Address	Subject	Date(s) of Practical Examination
Meghna Institute of Dental Sciences, **Mallaram,Varni Road, Nizamabad**	**General Human Physiology & Biochemistry**	**19th to 22nd Nov 2024**
Principal: **Dr. M.Pratap Kumar,** Contact No.: **9848072945**		

You are requested to be in touch with the Principal for further details.

Kindly send your acceptance to the above E-Mail ID of the University with your correspondence address and mobile number. YOUR REPLY SHOULD REACH THE UNIVERSITY.

You are requested to decline this offer if any candidates of your relatives are appearing for the examination.

Your kind co-operation in smooth conduct of the examination is solicited.

Further you are eligible to receive the remuneration as per university norms.

Controller of Examinations

DATTA MEGHE
INSTITUTE OF HIGHER
EDUCATION & RESEARCH
(DEEMED TO BE UNIVERSITY)
LEARN. LEAD.
NAAC A++ CGPA - 3.78 (4th Cycle of Reaccreditation)

Dated: 11.02.2025

Conf. No. : 2025/PR/W-AHS/W-24/43

To,

Internal Examiner :

1) Mrs. Dipali Jadhav
Assistant Professor,
Dept. of Pharmacology
DMCP Sawangi , Wardha.
(M): 95795 38572
Email: dipali91jadhav@gmail.com

External Examiner :

1) Dr. Santosh Kumar Jha
Associate Professor,
Dept. of Physiology
Dr Ulhas Patil Medical College and Hospital, Jalgaon
(M): 8368304211
Email: blueskysantosh@gmail.com

Subject: Appointment of External/Internal Examiner for Practical Examination.

Sir/Madam,

I am directed to inform you that you have been appointed as External Examiner /Internal Examiner for the **Practical of B.Sc in All Branch (1 SEMESTER))** in the subject of **Basic Physiology** Examination of – **Winter - 2024** to be held on **17.02.2025 TO 18.02.2025 AND 20.02.2025 TO 22.02.2025, 09.30 AM Onwards** at **School of Allied Health Sciences, Sawangi (M) Wardha.**

1. All relevant papers on the subject are enclosed herewith for your information and guidance. I shall be glad to furnish you such other information as may be found necessary.

2. **I request you to kindly inform in the enclosed Form CN-03(b) (Acceptance Form) your willingness to accept the above appointment.** In case you are unable to accept the above appointment, it is requested that may be informed to the undersigned immediately.

   You are requested to keep the appointment strictly confidential and address all correspondence in this connection to my personal address.

3. **(FOR EXTERNAL EXAMINER ONLY).** If you accept the appointment, you are requested to communicate as soon as possible directly to the Dean of the Constituent College concerned. The Deans have been requested to provide you all facilities for conducting the practical examination and keep ready:
   (i) All the material ordinarily required for the practical examination to be held at the constituent college and any other materials which the examiners may specify; and
   (ii) The students' record of work done during their course which should be taken into account in awarding the marks.

4. Any attempt made by or on behalf of a candidate to secure preferential treatment in the matter of his/her examination shall be reported to the Controller of Examinations, who shall place the matter before the Hon'ble Vice-Chancellor.

5. The conduct of the examination, the setting of questions, the allocation of marks and the preparation of result sheets shall be done by the internal and external examiners jointly. In case of difference of opinion the decision of the external examiner shall be final. The marks allotted shall be kept strictly confidential by the examiners and should be forwarded to the Controller of Examinations, **through the HOI as per the SOP already provided..**

6. **Your special attention is invited to the following Rule:**
   "If a child, near relation or dependent of any person who has been offered appointment as an examiner has obtained or proposes to obtain admission to the examination in the subject for which the appointment has been offered, he is requested to inform the undersigned of the University accordingly, as acceptance of appointment in such cases is not permitted by the University.

Yours faithfully,

(Dr. Sunita Vagha)
Controller of Examinations

ABSTRACT-

Background - Polycystic ovarian syndrome (PCOS) is the most common endocrine disorder and cause of infertility among women of reproductive age group.

Aim and objectives-To access awareness and knowledge towards polycystic ovarian syndrome among healthcare related students.

Materials and Methods- The study included 176 students of medical and paramedical background. Online questionnaires were prepared and link was provided to fill only one entry per student. Data was analysed by using MS-excel and Minitab- 17 statistical software.

Results- A total of 176 students were participated in the study of whom 117 were females and 59 were males. The result showed good level of knowledge of PCOS in 61.54% of females and 52.54% of males. With respect to awareness level, 69.49% of males and 64.96% of females have good awareness level of PCOS. On comparision of knowledge levels of three groups i.e. MBBS, BHMS and BPT; average knowledge score of MBBS group was 11.14, BHMS group was 10.85 and BPTH group was 9.58. The F value of ANOVA test was 3.82 with p value 0.024. The p value less than 0.05, shows significant difference in the average knowledge level among all three groups.

Conclusion- Although, majority of students have the basic knowledge of PCOS, but the periodic academic activities like seminars are required to upgrade the information about PCOS.

Keywords- Polycystic ovarian syndrome (PCOS), knowledge, awareness, medical students, paramedical students

Introduction – Polycystic ovarian syndrome (PCOS) is the most common endocrinopathy affecting women of reproductive age group throughout the globe. About 5 to 10% of women of reproductive age are affected by PCOS (1, 2). It is characterized by hirsutism, menstrual irregularities, obesity, acne, and alopecia (3). This not only affects the fertility of the women but predisposes them to the risk to diabetes mellitus and depression as well (4, 5). As per evidences that poor awareness of PCOS may lead to negative outcomes for women (6). The real cause of the syndrome has not been yet identified precisely and symptoms of presentation vary greatly from case to case, which makes it a challenge for physician to diagnose (7). However, it is very crucial to be diagnosed in early age to reduce the disease undesirable complications of PCOS. PCOS has a complicated and poorly known aetiology. Increased androgen and /or insulin together cause the underlying hormonal imbalance. The aetiology of PCOS includes factors such as obesity, ovarian dysfunction, hypothalamic pituitary abnormalities, and genetic and rapidly changing lifestyle that lead to hormonal disruptions (8).Women with PCOS are more likely to be obese, have dyslipidemia, develop type II diabetes, and may experience cardiovascular problems due to a higher frequency of endothelial dysfunction, inflammation, hypertension, hyperlipidemia, and subclinical atherosclerosis (8). It raises the possibility of miscarriages, premature births, neonatal problems, and abnormalities in the developing foetus (9, 10). A number of studies have shown the link between gynecological malignancies and PCOS (11). PCOS patients have a higher risk of cancer due to hormonal imbalance and a longer ovulatory state (11). According to results of a meta-analysis, women with PCOS are three times more likely to develop endometrial cancer than other women (11, 12). Furthermore, it has been discovered that PCOS is linked to a significant amount of stress due to the psychological and physical problems such as obesity and infertility (13). In fact, delayed PCOS diagnosis is linked with anxiety and depression (14, 15). Research indicates that women are more vulnerable to psychiatric disorders when they experience hormonal fluctuations, which is a typical clinical manifestation of PCOS.

In addition, there has been a rise in interest in the psychological aspects of PCOS. According to previous researches, 56.9% of women with PCOS have at least one psychiatric illness (16-18), and women with PCOS have been found to have increased rates of psychiatric disorders, especially anxiety, bipolar disorder and depressive disorder (19-21). Furthermore, a study showed that PCOS patient's quality life is impacted by comorbid psychiatric problems (22). While aforementioned research has shed light on the relationship between PCOS and co-occurring psychiatric disorders, the majority of these findings are derived from cross-sectional studies and do not use a longitudinal approach. Furthermore, rather than being diagnosed by a Psychiatrist, psychiatric disorders were frequently assessed in these research using rating measures like the Hamilton depression rating scale, the Beck depression inventory, or the Mini International Neuropsychiatric Interview (23-25). A lower quality of life may result in undiagnosed disease due to lack of knowledge about disease and its symptoms. Early diagnosis is essential to take necessary measures to prevent progress of PCOS. Thus, this study is intended to make awareness regarding PCOS which is playing major role in female infertility and also making aware of obesity related complications.

Materials and Methods: This cross sectional study was conducted among first year MBBS (Bachelor of Medicine, Bachelor of Surgery) students at Dr Ulhas Patil Medical College and Hospital, first year BHMS (Bachelor of Homeopathic Medicine and Surgery) students at Dr Ulhas Patil Homeopathic Medical College and Hospital and first year BPT (Bachelor of Physiotherapy) students at Dr Ulhas Patil College of Physiotherapy, Jalgaon, Maharashtra, India. After obtaining approval from Institutional ethical committee, study was conducted for a period of 2 months. Close ended questionnaires were given to the all students through online mode.

Sample size- Total of 176 students was participated in the study. Among 176 students, 106 students were from Dr Ulhas Patil Medical College and Hospital, 20 students were from Dr Ulhas Patil Homeopathic Medical College and Hospital and 50 students were from Dr Ulhas Patil College of Physiotherapy, Jalgaon, Maharashtra, India.

Statistical analysis- Online responses were transferred to a excel sheet and data analysis was done by using MS-excel and Minitab- 17 statistical software.

Results:

In our study, it has been observed that 61.54% of females having good knowledge of PCOS. In other hands, 52.54% of males have good knowledge of PCOS. 28.21% of females and 42.37% of males have average knowledge of PCOS. 10.26% of females and 5.08% of males had poor knowledge. In terms of awareness, 69.49% of males and 64.96% of females have good awareness level of PCOS. With respect to average awareness level, 23.73% of males and 18.80% of females have average awareness level. 16.24 % of females and 4% of males have poor awareness of PCOS.

Knowledge	Score	Male		Female		Total	
		Freq	%	Freq	%	Freq	%
Poor	0-5	3	5.08	12	10.26	15	8.52
Average	6-10.	25	42.37	33	28.21	58	32.95
Good	11-15.	31	52.54	72	61.54	103	58.52

Table 1: Gender wise assessment of knowledge level of students

Awareness	Score	Male		Female		Total	
		Freq	%	Freq	%	Freq	%
Poor	0-4	4	6.78	19	16.24	23	13.07
Average	5-8.	14	23.73	22	18.80	36	20.45
Good	9-13.	41	69.49	76	64.96	117	66.48

Table 2: Gender wise assessment of awareness level of students

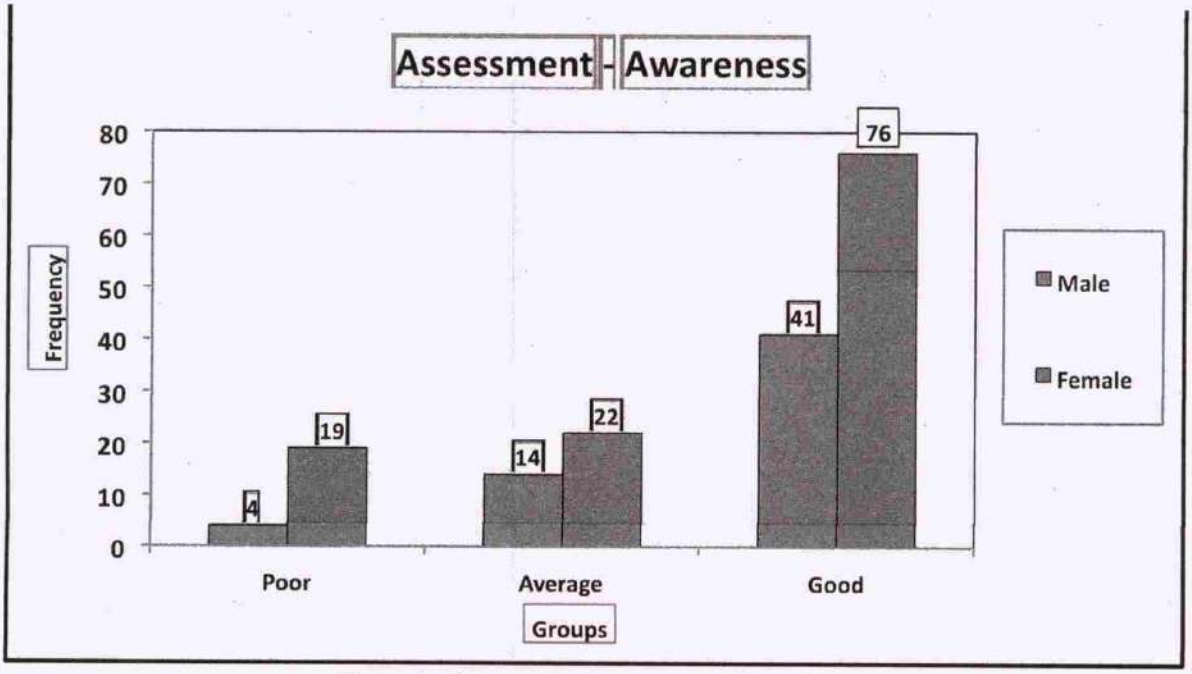

Figure 2: Gender wise assessment of Knowledge

One way ANOVA was used to compare the knowledge levels of three groups i.e. MBBS, BHMS and BPT. Average knowledge score of MBBS group was 11.14 with standard deviation of 3.55. Average knowledge score of BHMS group was 10.85 with standard deviation of 2.56. Average knowledge score of BPTH group was 9.58 with standard deviation of 3.01. The F value of ANOVA test was 3.82 with p value 0.024. The p value less than 0.05, shows significant difference in the average knowledge level. One way ANOVA was used to compare the awareness levels of three groups. Average awareness score of MBBS group was 9.66 with standard deviation of 3.52. Average awareness score of BHMS group was 8.90 with standard deviation of 3.79. Average awareness score of BPTH group was 8.38 with standard deviation of 3.31. The F value of ANOVA test was 2.36 with p value 0.097. The p value more than 0.05, shows no significant difference in the average awareness level.

Course	N	Mean	SD	F value	p value
MBBS	106	11.14	3.55	3.82	0.024
BHMS	20	10.85	2.56		
BPT	50	9.58	3.01		

Table 3: Course wise comparison of average knowledge level of students

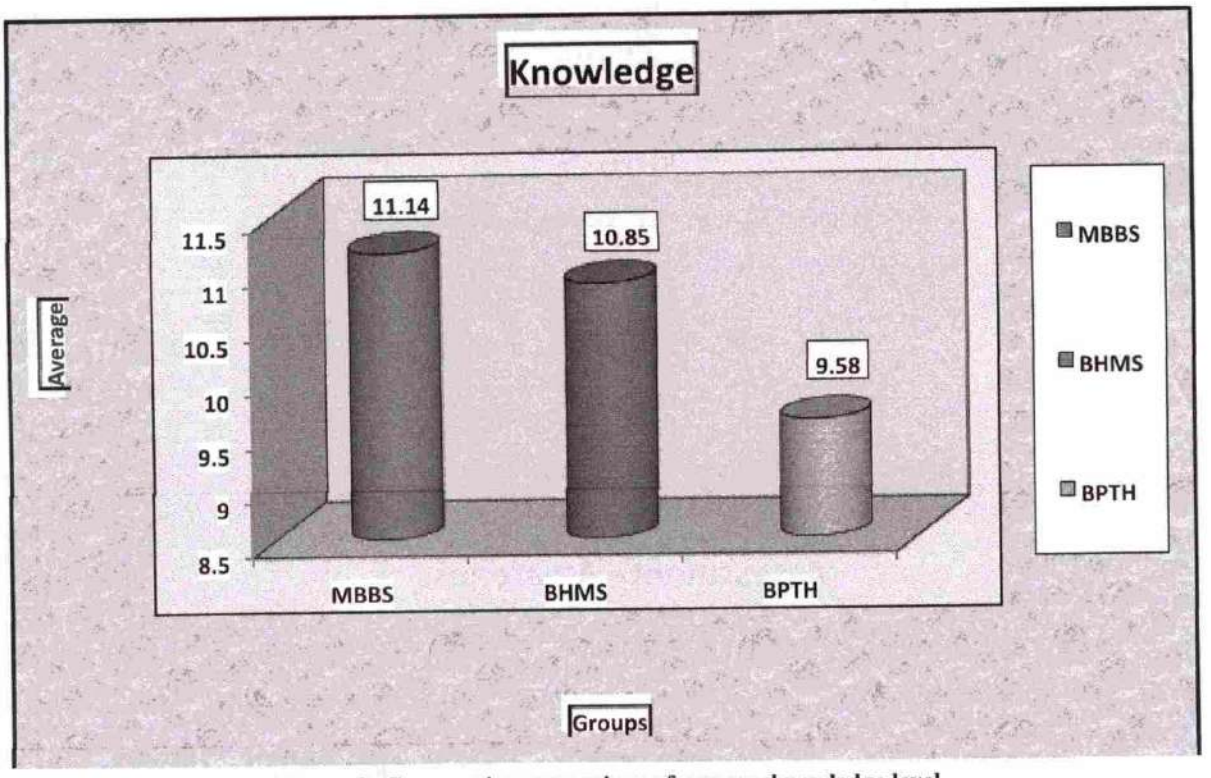

Figure 3: Course wise comparison of average knowledge level

Course	N	Mean	SD	F value	p value
MBBS	106	9.66	3.52	2.36	0.097
BHMS	20	8.90	3.79		
BPT	50	8.38	3.31		

Table 4: Course wise comparison of average awareness level of students

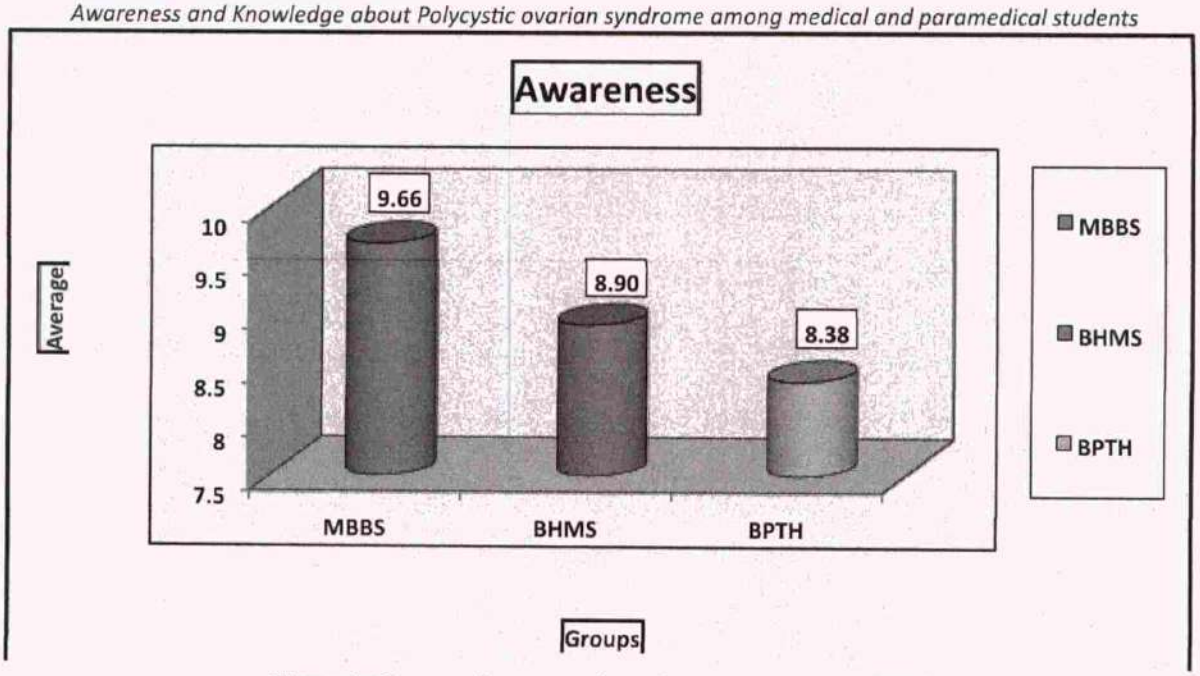

Figure 4: Course wise comparison of average awareness level

Discussion: PCOS is a heterogeneous endocrine condition with a variety of metabolic and reproductive pathological characteristics. Due to their changing lifestyle and dietary pattern, it is becoming an issue among adolescents and reproductive age group females. For the right steps to be taken, it is imperative that people become more aware about PCOS and its symptoms.

Majority of our female medical and paramedical students have good knowledge and awareness of PCOS. In our study female students have good knowledge and awareness level as compared to male. Similarly, study conducted by R Sasikala et al found that female nursing students had good knowledge as compared to male nursing students ($p<0.01$) (26). Another research from Subhashree et al found that female medical students had good knowledge as compared to male students (27). As per Abantika et al, overall awareness about possible complications of PCOS was better in males as compared to females (28), which is just opposite to our findings. Educational profile plays vital role in acquiring knowledge of PCOS as evident in the present study which is due to various health education programmes and attitude towards practices. Knowledge level of PCOS is highly significant in MBBS students (Mean: 11.14 ± 3.55) than BHMS (Mean: 10.85 ± 2.56) and BPT (Mean: 09.58 ± 3.01) students. F value of ANOVA test was 3.82 with p value 0.024 ($p<0.05$ is statistically significant).

Conclusion: Polycystic ovarian syndrome is a growing medical concern. Despite its growing incidence, knowledge and awareness of the disease remain constrained. Social and environmental factors might have major influence, and the management is primarily centered on lifestyle modification. Thus, knowledge and awareness about disease is essential, especially for those pursuing medical education. Even though the illness exclusively affects women, all medical and paramedical students should be aware of the symptoms and the required lifestyle changes.

Acknowledgement: The authors would like to thank all medical and paramedical students who participated in this study.

Sub Temporary Approval to the appointment of teacher...
Ref.: 1)University Direction No. 01/2017 dated 13/04/2017,
२)महाविद्यालयाचे पत्र क्र. गोफा/डॉयुपीएमसी/ शिक्षकमान्यता/२०२४/३८० वि.१८/०७/२०२४

Sir/Madam,

With reference cited above, I am directed to inform you that, the proposal of approval to the appointment of the following teacher(s) has been considered by the University and it has been decided to grant the same, as indicated below:-

Sr. No.	Subject	Name of the teacher	Designation	Status of Approval
01	Anatomy	Dr.Rajendara Sakharam Rakh	Assistant Professor	w.e.f. 15/07/2024 to 14/07/2025 for one years only. against SC category.
02	Anatomy	Dr.Poonam Basavaraj Tenginkai	Assistant Professor	*w.e.f. 15/07/2024 to 14/07/2025 for one years only. against VJNT category.
03	Physiology	Dr.Alok Kumar Yadav	Assistant Professor	w.e.f. 15/07/2024 to 14/07/2025 for one years only. against SC category.
04	Physiology	Dr. Kapil Ganesh Pallod	Assistant Professor	*w.e.f. 15/07/2024 to 14/07/2025 for one years only. against VJNT category.
05	Physiology	Dr. Basavaraj Murlidhar Tenginkaii	Assistant Professor	*w.e.f. 15/07/2024 to 14/07/2025 for one years only. against OBC category.
06	Biochemistry	Dr.Dipti Mahendra Katre	Assistant Professor	*w.e.f. 15/07/2024 to 14/07/2025 for one years only. against SC category.
07	Biochemistry	Dr.Swati Satish Padghan	Assistant Professor	*w.e.f. 15/07/2024 to 14/07/2025 for one years only. against VJNT category.
08	Pharmacology	Dr. Prabodh Anil Wankhede	Assistant Professor	*w.e.f. 15/07/2024 to 14/07/2025 for one years only. against SC category.
09	Pharmacology	Dr. Gaikwad Mahendra Mahadu	Assistant Professor	*w.e.f. 15/07/2024 to 14/07/2025 for one years only. against VJNT category.
10	Pharmacology	Dr.Vivek Ravindra Phirke	Assistant Professor	*w.e.f. 15/07/2024 to 14/07/2025 for one years only. againstOBC category.

COMPARISON OF PROBABLE RISK FACTORS AND LUNG FUNCTIONS AMONG UNDERGRADUATE MEDICAL STUDENTS IN NORTHERN MAHARASHTRA- A CROSS-SECTIONAL STUDY

Dr Alok Kumar Yadav[1*], Dr Shankar Yadav[2]

[1*]Associate Professor, Department of Physiology, Dr. Ulhas Patil Medical College and Hospital, Jalgaon, Maharashtra
[2]Assistant Professor, Department of Physiology, Bhagyoday Medical College, Kadi, Gujarat

***Corresponding Author:** Dr Alok Kumar Yadav
*E-mail: alokpgi@gmail.com

ABSTRACT:

Background: Lungs, by virtue of their direct contact with atmospheric air, are naturally the first to bear the onslaught of air contamination. Many risk factors are associated with pulmonary dysfunction. It is necessary to rule out such risk factors as allergy, smoking, childhood-onset respiratory infection, familial history of respiratory diseases, and childhood dyspnea. Although many studies were conducted in the past, most of the risk factors were not considered and compared with lung function among young adults.

Objective: To study and compare the lung function tests of young adult healthy college students with a history of exposure to risk factors and a control group.

Methodology: A Total sample of 330 subjects were recruited for the study, and the participants were explained in detail about the procedure, and written informed consent was obtained. Information about demographic data, socio-economic condition, lifestyle factors and probable risk factors for lung dysfunction was collected using a proforma. Using a computerised spirometer, various pulmonary function tests like Forced expiratory volume in one second (FEV_1), Forced vital capacity (FVC), FEV1/FVC in percentage, Peak expiratory flow rate (PEFR), Mean forced expiratory flow (FEF_{25-75}), and Tidal volume (TV) were measured. The lung functions of a control group and subjects with probable risk factors were compared and analysed by using appropriate statistical methods.

Results: Systolic blood pressure and heart rate values were higher among the smokers, which was statistically significant. Lung function tests (FEV1, FVC and PEFR) were significantly decreased (P value<0.05) in individuals with a history of childhood dyspnea as compared to controls. FEF_{25-75} was decreased significantly (P value<0.05) among smokers and individuals with a history of allergy. FEV1 and FVC were significantly reduced in the case of the underweight and overweight groups.

Conclusion: Smoking tends to increase blood pressure and heart rate along with a decrease in lung function, especially FEF_{25-75} parameter. Other common risk factors which are associated with reduced lung function are a history of childhood dyspnea and a history of allergy, mainly affecting FVC, FEV1, PEFR and FEF_{25-75}, respectively. Lung functions are reduced in the underweight group.

Keywords: Lung function, PFT, Risk factors, BMI, Young adults.

INTRODUCTION

Lungs, by virtue of their direct contact with the atmospheric air, are naturally the first to bear the onslaught of air contamination.[1] Environmental, occupational and industrial hazards, which are some of the risk factors, generally affect the lung function. In the Indian scenario, occupationally related lung diseases are common due to deposition of dust, type of dust, period of exposure, concentration and size of the airborne particle in the breathing zone.[2] Other risk factors include smoking, low birth weight, childhood respiratory infection and history of allergy for pulmonary dysfunction.[3] According to the World Health Organisation, around 12% of the world's smokers are in India. Millions of people die every year from diseases secondary to smoking.[4] Hence, there is a need to assess lung function among the young adult population who are exposed to various risk factors.

Pulmonary function test is a generic term used to indicate a battery of studies or manoeuvres that are performed using standardised equipment. These tests evaluate one or more aspects of the respiratory system, like respiratory mechanics, lung parenchymal function/ gas exchange, cardiopulmonary interaction, etc. These tests are important for clinical, diagnostic & prognostic values as well as for research work purposes. Until today, plenty of work has been done to assess the pulmonary function in healthy as well as in diseased individuals, yet there remains scope to include many other risk factors.[5]

A spirometer is used in pre-recruitment to evaluate pulmonary fitness, which helps in distinguishing obstructive and restrictive lung diseases. It is also used to judge pulmonary efficiency in physical fitness testing. While recording pulmonary functions, the following factors, such as age, gender, ethnicity, body mass index, and body surface area, are taken into consideration.

Although there are many studies conducted in the past considering the probable risk factors that affect the lung function, there appears scarcity of studies among the young adult population. Hence, the present study was undertaken to know the relationship between possible risk factors to which the individuals are exposed and their influence on the lung functions in their adolescent age. As the students studying in health science courses are the future doctors and health care providers of society, it is important to study the health status of these students, which in turn will improve the quality of life and also create awareness of the risk factors that affect lung function.

Materials and Methods

The present study was conducted in the Department of Physiology, Dr Ulhas Patil Medical College and Hospital, Jalgaon, Maharashtra

Source of data:

First-year health science students of Dr Ulhas Patil Medical College and Hospital, Jalgaon, Maharashtra

Method of collection of data:

- **Study design**: Cross-sectional study
- **Study period**: One year, January 2024 to December 2024
- **Sample size**:

The prevalence of impaired lung function among individuals with a history of associated risk factors in previous literature is 8.2%.

The sample size of 330 was calculated as -

$n=4pq/d^2$

p= prevalence of 8.2%

q=100-p

d=error (3% of p)

$n=4 X 8X 92/3^2$

n= 330

Inclusion criteria:
First-year Health Science students of the age group 18-25 years who are mentally and physically fit were recruited for the study.

Exclusion criteria:
Severe cardiovascular and pulmonary dysfunction.
History of previous surgery.
History of medication for chronic disease.
Neurological disorder.

Instruments for data collection:
- Computerised Spirolyzer. (RMS HELIOS 401 Chandigarh, ISO 9001:2000).
- Digital Blood Pressure monitor. (Omron digital BP monitor model 11 EM-403, Japan.).
- Weighing machine
- Height measuring stadiometer.

Method: -
The present study was initiated after obtaining ethical clearance from the institutional Human Ethics Committee. A total of 330 healthy young participants were randomly selected from first-year health science courses. The study population belonged to the age group of 18-25 years and with a similar socio-economic background. After obtaining the consent from participants, the study procedure was explained in detail. All the recruited subjects were given a proforma to complete, which consisted of age, personal data, demographic data, and health status. Students who had a history know pulmonary disease and were taking treatment for the same were excluded from the study.
Before recording of pulmonary function, the anthropometric data like height, weight, age and BMI were recorded. All vital parameters (Heart Rate, Systolic Blood Pressure and Diastolic Blood Pressure) were recorded. The pulmonary function tests were recorded using the computerised spirometer after demonstrating the procedure to the participants. The nose clip was applied at the nose, and the participants were asked to repeat the demonstrated procedure after applying the nose clip so that the participant inspires and expires through mouth mouthpiece of the transducer. The best of the three readings was considered for the study purposes. The recorded parameters were FEV_1, FVC, FEV1/FVC, FEF_{25-75}, PEFR, and TV.

Statistical Analysis:
The Welch test was used to compare groups with probable risk factors and lung function. Dunnett's test was used to compare lung function in different BMI groups. The data was analysed by using descriptive statistics. Statistical results were considered significant at $p<0.05$.

RESULTS
The present study was conducted to determine the relationship between various risk factors and lung functions among young adult college students of health science courses.

Table 1: Cardiovascular parameters in different groups

Groups	Total participants	Age (years)	SBP (mm Hg)	DBP (mm Hg)	HR (beats/min)
Control	93	19.65±1.30	110.24±15.18	73.69±10.59	77.19±7.48
Smoking	56	21.41±2.00	119.28±12.97	77.75±9.37	85.62±13.58
Allergy	54	20.66±2.29	111.63±19.60	76.75±7.5	83.15±9.37
Childhood Resp. Infection	81	20.66±2.10	112.03±17.53	76.38±8.63	82.66±10.21
Childhood dyspnea	10	19.90±1.83	114.40±15.66	76.4±12.54	83.20±10.04
Family history of Respiratory Infection	36	19.80±1.93	112.55±15.52	75.5±10.51	82.66±14.02
P value		<.001	0.041	0.172	<0.001

Students were classified into different groups based on the history of exposure to various risk factors. Groups consisting of a negligible number of students exposed to some risk factors (preterm, low birth weight) were omitted. Table 1 shows the cardiovascular parameters in the six different groups, including their mean age, systolic blood pressure, diastolic blood pressure, and heart rate. The history of smoking was found to be higher in elder students, and all cardiovascular parameters were higher among the smokers, showing statistically significant differences with systolic blood pressure and heart rate.

Table 2 Pulmonary function tests in different groups.

GROUPS	FVC (L)	FEV1 (L)	FEV1/FVC (Percentage)	FEF_{25-75} (L/Sec)	PEFR (L/Sec)	TV (L)
Control	4.4±0.41	4±0.16	86.9±5.03	4.3±0.29	7.8±0.69	0.54±0.03
Smoking	3.5±0.57	3±0.46	86.1±4.73	3.9±0.56	7.1±0.85	0.52±0.02
Allergy	3.3±0.55	2.8±0.47	85.4±5.88	4±0.20	7±0.79	0.52±0.02
Childhood respiratory infection	3.4±0.57	2.9±0.48	86.5±5.10	4.1±0.68	6.8±0.94	0.52±0.03
Childhood dyspnea	2.7±0.67	2.3±0.54	86.8±3.74	4±0.13	6.7±0.65	0.52±0.02
Family history of respiratory infection	3.2±0.53	2.8±0.42	86.9±5.76	4.1±1.03	6.7±0.70	0.52±0.03
P value	<0.001*	<0.001*	0.538	0.003*	<0.001*	0.432

Table 2 shows the pulmonary function tests among the different risk factors. Subjects with a history of childhood dyspnea showed a statistically significant decrease in FEV_1 and FVC (P value 0.001). FEF_{25-75} was found to be significantly decreased among the smokers (p value=0.003) and the allergy group (P value =0.018) as compared with the normal individuals. PEFR was found to be significantly (p value<0.001) decreased in individuals with childhood dyspnea as compared to normal individuals. There was no difference in TV and FEV1/FVC ratio between the normal and individuals associated with risk factors.

Table 3: Effect of Body Mass Index on lung function.

BMI	n	FEV1 (L)	FVC (L)	FEV1/FVC (Percentage)	FEF_{25-75} (L/s)	PEFR (L/s)	TV (L)
NORMAL	272	2.93±0.39	3.34±0.45	86.2±5.07	4±0.53	6.8±0.72	0.54±0.04
UNDER WEIGHT	15	2.6±0.48	3.01±0.58	87.4±7.17	4.4±1.39	6.5±0.47	0.54±0.02
OVER WEGHT	43	2.7±0.62	3.11±0.45	87.4±5.04	3.9±0.52	6.4±1.26	0.53±0.05
P value		0.047*	0.028*	0.285	0.365	0.065	0.056

Table 3 shows the comparison of lung function tests in different BMI groups. FEV1 and FVC were reduced in overweight and underweight groups; however, this was statistically significant among the underweight groups.

DISCUSSION

The present study showed that cardiovascular parameters (blood pressure and heart rate) were high among smokers. Many studies have explained the immediate noxious effects of smoking, which causes overactivity of the sympathetic nervous system, increases myocardial oxygen consumption through a rise in blood pressure, along with heart rate and myocardial contractility due to stimulation of β_1 receptors. Nicotine present in cigarette smoke increases short-term blood pressure, heart rate by increasing cardiac output and peripheral vascular resistance immediately before any increase in circulating catecholamines, causing narrowing of arteries, stiffness of the arterial wall and making the blood clot. With each Cigarette smoking, blood pressure rises transiently with elevation of 20 mmHg, which further induces arterial stiffness, which persists even after cessation of smoking.[6-8]

In the present study, it was observed that there was a decrease in pulmonary functions among the individuals with a history of risk factors such as smoking, childhood dyspnea, and allergy, especially regarding FVC, FEV_1, FEF_{25-75} and PEFR.

There was a significant decrease in FEF_{25-75} among the smokers. A vast data is supporting the possible reasons for reduction in FEF_{25-75} primary being bronchospasm, airway irritability or tightening of airways which makes the airways even smaller leading to difficulty in the breathing process.[9-11] Previous studies had linked smoking with airflow limitation which occurs due to release of inflammatory mediators causing bronchoconstriction either by increasing the smooth muscle tone or by causing fibrosis. All these changes promote the thickness of the wall, leading to narrowing of the airway and airflow limitation, destruction of the alveolar wall, which further contributes to narrowing of the airway lumen.[12]

In the present study, it was observed that there was a reduction in FVC, FEV_1, and PEFR in subjects with a history of childhood dyspnea. The previous study has also described that the decrease in lung functions among childhood dyspnea could be due to occlusion of the airway lumen by liquid, fibrin and mucus, leading to loss of communicating spaces. Fibrin acts as a potent inactivator of surfactant, which results in increased formation of liquid bridges across the airway lumen. A fall in FEV_1 is due to a fall in FVC and a secondary rise in FRC and RV, which leads to trapping of air. Airway hyper-responsiveness in childhood dyspnea reflects the closure of small airways rather than the narrowing of larger airways, which makes it difficult to open closed airways.[13]

The present study showed that FEF_{25-75} was reduced in the allergy group. The history of allergy includes indoor allergy, outdoor allergy, allergy to pollen grains, and allergy to weather changes. Studies in the past have shown health effects of air pollution where the ground level of ozone can irritate the respiratory system, aggravate and damage lung tissue and cause a reduction in lung function.[14] Air pollution may be due to agricultural, commercial, industrial, transportation and residential leading to penetration of particulate matter into the tracheo-bronchial tract deep into the

airways and inducing alveolar inflammation, sputum production and narrowing of the breathing passage.[15] Interaction with pollen grains also increases the release of allergens and causes an inflammatory reaction within the airways, where the pollen allergens penetrate the mucosa and interact with the immune system. Evidences prove that air pollution induces airway hyper-responsiveness to pollen allergens [16]

The present study showed a reduction in FEV_1 and FVC in underweight and overweight as compared to normal weight individuals. Reduced FEV_1 and FVC in underweight individuals may be attributed to diminished diaphragm contractility leading to shortening of the muscle mass which in turn lowers the dynamics of lung function[17]and the other possible reason could be related to low lung function at birth due to low birth weight and this decreased lung function may even continue in older life due to environmental or genetic factors. Reduced FEV_1 and FVC in overweight individuals is possibly due to mechanical limitations of expansion of the chest, as the accumulation of fat prevents movement of the chest wall and descent of the diaphragm, which may reflect intrinsic changes within the lungs, causing narrowing of the airways. The airway calibre in overweight is reduced because of structural and functional changes of airway wall, airway smooth muscle, lung parenchyma and upper airways by proinflammatory adipocytokines. Chronic reduction in end-expiratory lung volumes might cause micro-atelectasis, which further decreases lung function.[18]

CONCLUSION

According to the result and the discussion presented in this study, the following conclusion can be drawn-Smoking tends to increase blood pressure and heart rate along with a decrease in lung function, especially FEF_{25-75} parameter. Other common risk factors which are associated with reduced lung function are a history of childhood dyspnea and a history of allergy, mainly affecting FVC, FEV_1, PEFR and FEF_{25-75}, respectively.

Lung functions get affected in different BMI groups. FVC and FEV_1 are particularly reduced in the underweight category. All the above-mentioned parameters are altered as compared to the control group, although the values remain within normal limits.

This knowledge of association between probable risk factors and altered lung functions will create awareness to take preventive measures in future life. This improves the life quality of young adults. A larger sample size with all probable risk factors could have been considered.

CONFLICT OF INTEREST

There are no conflicts of interest.

Staff Performance Self-Appraisal Report

Academic Year: From 01/08/2024 to 31/07/2025

Name of Faculty	Dr. Kapil Ganesh Pallod		
Qualification	MD, Physiology	**Designation:**	Assistant Professor
Department	Physiology	**Date of Joining**	01/05/2021
University Approved faculty with Date	19/09/2024	**Total Teaching Exp.:**	7yn 9month.

SECTION- I.
Teaching Learning and Evaluation: (Total Credit Points:40)

A. Teaching Load Details (15 Credit Points) — **To be filled by Faculty**

No. of Lectures /Practical Scheduled	No. of Lectures/ Practical Conducted	No. of Tutorials/ SGD Scheduled	No. of Tutorials/ SGD Conducted	No. of Seminar/ Demonstration Scheduled	No. of Seminar/ Demonstration Conducted	Overall Percentage of Attendance	Result of Subject
15	15	07	07	72	72	100 do	93.5 do

Guidelines for Evaluation: - Teaching Load Conducted
(100% or more: 15 credit points ; 90 – 99 conducted: 12 credit points ; 80 – 89 % conducted: 9 credit points;
70 – 79 % conducted: 6 credit points; Below 69% conducted: 3 credit points)

B. Teaching Load Academic Schedule Details: (25 Credit Points) — **To be filled by Faculty**

Use of Pedagogical Aids in T-L method (5 credit points)	Paper setting/ Paper checking Departmental work (5 credit points)	Efforts taken for improvement of Students performance (5 credit points)	Project Guided to Students (5 credit points)	Funded Research Projects Undertaken (5 credit points)
Yes	Yes	Yes	NO	NO

SECTION: II
Research, Academic Contribution and Professional Achievements: (Total Credit Points:60)

A. Examination Duties at University level / College level: (10 credit points) — **To be filled by faculty**

Sr	Examination	Centre	Worked as External / Internal	Duration in Days
1.	Ist MBBS Ist Terminal Practical Exam	DUPMC, Jalgaon kh	Internal	05
2.	Ist MBBS IInd Terminal Practical Exam	DUPMC, Jalgaon kh	Internal	05
3.	Ist MBBS Prelim Practical Exam	DUPMC, Jalgaon kh	Internal	05
4.				
5.				

Guidelines for Evaluation: Duration of Examination: 1 day one credit point. Maximum 10 credit points

B. Research Article Published in National, International Journal / Book Chapter Published					
First author: 7 Credit Point /Activity; Second author: 5 Credit Point /Activity. (Max. 2 activity)					
1.	Title				
	Name of Journal		ISSN/ISBN No.		
	Indexed In		Author Order		
	Publication Details	Year/Volume/Issue/Page Number			
2.	Title of Book				
	Publisher		ISBN No.		
	Publication Details	Edition / Year			

C. Paper / Poster presented in conference					
5 Credit Point /Activity (Max. 2 activity)					
1,	Title of Paper / Poster				
	Conference Details	Organized by			
		Place and Date			
2.	Title of Paper / Poster				
	Conference Details	Organized by			
		Place and Date			

D. Seminar/ Conference/ Workshop/ CPD/ FDP, etc Participated				
5 Credit Point /Activity (Max. 2 activity)				
Sr	Name of Program	Place & Date	Duration	Organized by
1.				
2.				

E. Contribution as Resource Person, Invited speaker, Reviewer, Session Chair, Members of Conference Committee (Not organized by own institute) / Patent/ Copy right				
8 Credit Point /Activity (Max. 2 activity)				
Sr	Name of Program	Place & Date	Contribution as	Organized by
1.				
2.				
Attached copy of all relevant document for Section II				

SECTION- III

Extension and Co-Curricular activities with Professional Development: (Total Credit Point: 30)

A. Participation in organizing curricular/ co-curricular/ extracurricular activities

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.				
2.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

B. Contribution in UG/PG Admission process/ Counselling/ Institutional Development (NAAC/NABH etc)

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.				
2.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

C. Participation in Administrative and other responsibility

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.				
2.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

SECTION- IV

Involvement of staff in other Activities/ Additional Academic Progress: (Total Credit Point: 20)

A. MoU made with organization/ Alumni work

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

B. Additional degree/ super speciality degree/ Ph.D./

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Program (course)	Place & Registration Date	Duration of Program	Present Status
1.				

C. Short courses / online courses done by faculty

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Course	Conducted by	Course Duration	Date of Result
1.				
2.				

Attached copy of all relevant document

D. Any Award / Appreciation Certificate (Not from own Institution) received by faculty

5 Credit Point /Award or Appreciation Certificate (Max. 1 Consider)

Sr	Name of Award	Place & Date	Local/ State/ any other	Awarding agency
1.				
2.				

Attached copy of all relevant document

SECTION- V
Other Information

A. Leave taken by faculty / Absent from the Institute with details: (From 01/08/2024 to 31/07/2025)

ASSESSMENT OF SERUM HOMOCYSTEINE LEVELS AND THEIR ASSOCIATION WITH COGNITIVE FUNCTION IN ELDERLY INDIVIDUALS

Dipti Mahendra Katre[1], Jyoti Sitaram Dubhalakar[2]

[1]Assistant Professor, Department of Biochemistry, Dr. Ulhas Patil Medical College & Hospital, Jalgaon, India.
[2]Senior Resident (SR), Department of Biochemistry, Government Medical College, Parbhani, India.

Received Date: 06/08/2024 Acceptance Date: 30/08/2024

Abstract

Background: Elevated serum homocysteine levels have been implicated as a potential risk factor for cognitive decline in the elderly. This study explores the association between serum homocysteine levels and cognitive function among elderly individuals. **Methods:** This cross-sectional study included 200 elderly participants aged 65 years and above. Serum homocysteine levels were measured, and cognitive function was assessed using standardized cognitive assessment tools. Participants were categorized based on their homocysteine levels (<10 µmol/L, 10-15 µmol/L, >15 µmol/L) and cognitive function (normal, mild cognitive impairment, dementia). Statistical analyses included logistic regression to assess the odds ratios for cognitive impairment associated with homocysteine levels, adjusting for potential confounders. **Results:** Of the 200 participants, 78 (39%) had high homocysteine levels (>15 µmol/L), which were significantly associated with cognitive impairment (OR = 2.5, 95% CI: 1.5-4.1, $P < 0.01$). The risk of cognitive impairment increased with higher homocysteine categories, particularly for those with levels >15 µmol/L compared to the reference group (<10 µmol/L). Cognitive assessments revealed that 40 (20%) of the participants were diagnosed with dementia, showing a strong association with elevated homocysteine levels. **Conclusion:** The findings suggest a significant association between high serum homocysteine levels and increased risk of cognitive impairment among elderly individuals. These results underscore the importance of monitoring and potentially managing homocysteine levels to mitigate cognitive decline in the aging population.

Keywords: Homocysteine, Cognitive Function, Elderly

Introduction

Homocysteine, a sulfur-containing amino acid, is predominantly formed from methionine, an essential amino acid, through demethylation. In the context of aging and cognitive decline, the metabolism of homocysteine has garnered attention due to its potential association with neurodegenerative diseases. Elevated serum homocysteine levels have been identified as a risk factor for various neurodegenerative conditions, including Alzheimer's disease and vascular dementia, suggesting a possible link to cognitive impairment in elderly individuals.[1][2]

I MBBS Preliminary Examination Batch-2024

Notice

Date:-22/04/2025

Following is the Time Table for Preliminary Examination. Examination is compulsory to all students.

All the students should report 15 minutes prior to time mentioned for examination.

Theory

Time:-9.30 am to 12.30 pm

Date	Day	Subject
23.06.2025	Monday	Anatomy-I
25.06.2025	Wednesday	Anatomy-II
27.06.2025	Friday	Physiology-I
30.06.2025	Monday	Physiology-II
02.07.2025	Wednesday	Biochemistry-I
04.07.2025	Friday	Biochemistry-II

Practical

Time:-9.30 am to Onward

Date	Day	Anatomy	Physiology	Biochemistry

Abstract:

Background: Thyroid function tests (TFT) and oxidative stress markers are crucial diagnostic tools for understanding body processes, assessing thyroid gland performance, and identifying primary thyroid disorders like hypothyroidism. **Aim:** The aim of the present study was to determine thyroid function test and oxidative stress markers in hypothyroidism patients. **Materials & methods:** The Department of Biochemistry conducted the study, which involved 300 participants aged 30-60 years, dividing them into two groups: 150 healthy individuals and 150 hypothyroidism patients. The study aimed to identify clinically diagnosed hypothyroid patients aged 30–60 years who have been on medication within the last five years. The study excluded patients with established conditions, chronic illnesses, pregnancy, recent surgical interventions, and those under 30 or over 60 years old. **Results:** The levels of all thyroid profile measurements (T3, T4, fT3, fT4, and TSH) were significantly different between the control group subjects and the hypothyroid group patients after the comparison. In comparison to hypothyroid group patients, the MDA level was substantially lower in control group subjects. TAC decreases in hypothyroid groups in comparison to the healthy control group. In contrast, our investigation did not identify any substantial disparities in NO levels between hypothyroid and control subjects. **Conclusion:** Thyroid dysfunction, including hypothyroidism, significantly impacts health and oxidative stress markers, affecting hormone metabolism, antioxidant metabolism, and cardiac function. Early detection and management are crucial for reducing cardiac risk.

Internal Vigilance Squad-2

Sub. :- Appointment as **Internal Vigilance Squad-2** for Theory Examinations to be held in Winter Phase - 4 II Yr. MBBS(Old/2019 Supplementary), I Yr. BAMS/ BUMS (2021), BHMS(CBDC-2022)

Ref. :- Direction given by Hon'ble Vice Chancellor.

Sir / Madam,

- I am directed to inform you that you have been appointed as a **Internal Vigilance Squad-2** for above mentioned Examinations as per details given below.
- This appointment is issued on the *assumptions mentioned-below and after going through it, inform your acceptance immediately by telephone/email (contact details are mentioned overleaf) within three-days from date of receipt of this appointment, thereafter it will be treated as acceptance for above mentioned duties.
- The duties, responsibilities and instructions are mentioned in the booklet "Rules for Conduct of Examination" (http://www.muhs.ac.in/upload/Rules_Conduct_of_Theory_Exam_Booklet_240412.pdf) which should be meticulously followed. The booklet is available at website and at Theory Examination Centre.You may download the Booklet from website.
- You are also requested to conduct the meeting of the examination related staff one day before start of examination period (see Clause 1.13 of the Booklet) and send the "Report of First Day Meeting" as per Specimen No.12 (mentioned in the Booklet) on the same day of meeting by Email/Post.
- *Please note that no person shall refuse to accept the assignment of examination work on casual ground, they have to produce necessary proof in this regard. They shall ensure that their availability for assignment is communicated in the prescribed time-limit.
- I expect your full cooperation for the smooth conduct of the programme.

He/she is requested to make available the copies of the timetable of the examination/s & the notifications issued, if any, to above-mentioned teacher when he/she would report for duty to work as Internal Vigilance Squad-2 at the Exam Centre.

2. Copy f.w. for information to :- The Dean / Principal, Dr.Ulhas Patil Medical College & Hospital, Jalgaon
He / she is requested to relieve above-mentioned teacher to work as Internal Vigilance Squad-2 for the above said Exam Centre.

***ASSUMPTIONS REFERRED TO IN PARA 3 OF THE APPOINTMENT**

I) If the class and the course of relative and the class and the course of Examiner are same, the concerned Examiner cannot conduct or undertake any University Examinations. (eg.: Class of relative is I-BDS Course and class of Examiner is I-BDS Course, the concerned Examiner cannot conduct any Examination of that particular University Examination).

II) If relative of any Examiner under the same faculty is appearing in the University Examinations, the concerned Examiner cannot conduct any Examination at that particular centerirrespective of class of relative. (eg.: Class of relative is I-MBBS Course and the class of Examiner is II-MBBS course, the concerned Examiner cannot conduct any Examination at that Particular Centre).

III) If class of relative and class of Examiner is different under the same faculty, and University Examinations are conducted or scheduled at different centers, the concerned Examiner can conduct the University Examinations. (eg.: Class of relative is I-B.Sc. Nursing and class of the Examiner is II-B.Sc. Nursing at different centers, the concerned Examiner can conduct the University Examinations).

IV) If the relative of any Examiner is appearing in the University Examinations under different faculty, the concerned Examiner can conduct the University Examinations. (eg.: Class of relative is I-BAMS and class of the Examiner is II-BHMS, the concerned Examiner can conduct the University Examinations).

V) If relative of any Examiner under the same or different faculty is appearing in the University Examinations the concerned Examiner cannot conduct any Examination at that particular Center.

Abstract

Background: Type 2 Diabetes Mellitus (T2DM) is a complex metabolic disorder characterized by insulin resistance and chronic low-grade inflammation. In India alone, over 72 million individuals currently live with diabetes, and this number is projected to nearly double by 2045.

Objectives: In this study, we aimed to investigate the correlation between serum insulin and CRP levels with HbA1c in T2DM patients to assess their predictive value in determining glycemic control.

Materials and Methods: A hospital-based cross-sectional observational study included on 100 T2DM patients aged 20-65 years. Fasting serum insulin and CRP levels were measured and correlated with glycemic status.

Results: The results showed that poor glycemic control was significantly associated with elevated CRP and fasting insulin levels.

Conclusion: These findings suggest that insulin resistance and inflammation play pivotal roles in the pathophysiology of T2DM and that CRP and insulin may serve as useful biomarkers in predicting glycemic control.

Keywords: Type 2 Diabetes Mellitus, Insulin, CRP, Glycemic Control, Hyperinsulinemia.

INTRODUCTION

Type 2 diabetes mellitus (T2DM) is a chronic metabolic disorder characterized by persistent hyperglycemia resulting from insulin resistance, impaired insulin secretion, or both. Globally, the prevalence of T2DM increases from 108 million cases in 1980 to 422 million in 2014 with projections surpassing 552 million by 2030, posing a significant public health crisis. [1] In India alone, over 72 million individuals currently live with diabetes, and this number is projected to nearly double by 2045. [2] Characterized by insulin resistance and relative insulin deficiency, T2DM not only disrupts glucose metabolism but also correlates with heightened levels of inflammatory markers that may exacerbate disease progression. [3,4]

Notably, poor glycemic control, measured via glycated hemoglobin (HbA1c), is strongly associated

MHIAPSMIPHACON 2025

Theme : Bridging Gaps and Expanding Boundaries towards Right to Health

Organized by Department of Community Medicine,

Dr. Ulhas Patil Medical College & Hospital, Jalgaon

26th Annual Joint State Conference of Indian Association of Preventive & Social Medicine Maharashtra Chapter & Indian Public Health Association Maharashtra Branch,

17th & 18th January 2025

Certificate

This is to certify that

Dr./Mr./ Mrs./ Miss. Raashika Saxena.

has participated as a Delegate in 26th Annual Joint State Conference of IAPSM Maharashtra Chapter & IPHA Maharashtra Branch organized at Dr. Ulhas Patil Medical College and Hospital, Jalgaon on 17th and 18th January 2025.

The Conference Delegate has been granted 4 (FOUR) Credit points by Maharashtra Medical Council

Vide Letter - MMC/Accre.Cert/MED-0087/2013/ Dated 09/01/2025

Staff Performance Self-Appraisal Report

Academic Year: From 01/08/2024 to 31/07/2025

Name of Faculty	AAYUSH MAHAJAN		
Qualification	Medical MSc. Biochemistry	**Designation:**	TUTOR
Department	BIOCHEMISTRY	**Date of Joining**	02 AUG 2024
University Approved faculty with Date		**Total Teaching Exp.:**	10 MONTHS

SECTION- I.
Teaching Learning and Evaluation: (Total Credit Points:40)

A. Teaching Load Details (15 Credit Points) — **To be filled by Faculty**

No. of Lectures /Practical Scheduled	No. of Lectures/ Practical Conducted	No. of Tutorials/ SGD Scheduled	No. of Tutorials/ SGD Conducted	No. of Seminar/ Demonstration Scheduled	No. of Seminar/ Demonstration Conducted	Overall Percentage of Attendance	Result of Subject
Yes	Yes	13	13	20	20	100%	complete

Guidelines for Evaluation: - Teaching Load Conducted
(100% or more: 15 credit points ; 90 – 99 conducted: 12 credit points ; 80 – 89 % conducted: 9 credit points;
70 – 79 % conducted: 6 credit points; Below 69% conducted: 3 credit points)

B. Teaching Load Academic Schedule Details: (25 Credit Points) — **To be filled by Faculty**

Use of Pedagogical Aids in T-L method (5 credit points)	Paper setting/ Paper checking Departmental work (5 credit points)	Efforts taken for improvement of Students performance (5 credit points)	Project Guided to Students (5 credit points)	Funded Research Projects Undertaken (5 credit points)
Yes	Yes	Yes	Yes	No

SECTION: II
Research, Academic Contribution and Professional Achievements: (Total Credit Points:60)

A. Examination Duties at University level / College level: (10 credit points) — **To be filled by faculty**

Sr	Examination	Centre	Worked as External / Internal	Duration in Days
1.	Winter MUHS Phase-I	DUPMC, Jalgaon	Junior Supervisor	9 days
2.	Winter MUHS Phase-II	DUPMC, Jalgaon	Junior Supervisor	6 days
3.				
4.				
5.				

Guidelines for Evaluation: Duration of Examination: 1 day one credit point. Maximum 10 credit points

B. Research Article Published in National, International Journal / Book Chapter Published				
First author: 7 Credit Point /Activity; Second author: 5 Credit Point /Activity. (Max. 2 activity)				
1.	Title	A Prospective study on errors in Pre-analytical Phase in Central laboratory, Biochemistry Unit

Sub Temporary Approval to the appointment of teacher...
Ref.: 1)University Direction No. 01/2017 dated 13/04/2017,
२)महाविद्यालयाचे पत्र क्र. गोफा/डॉयुपीएमसी/ शिक्षकमान्यता/२०२४/३८० दि.१८/०७/२०२४

Sir/Madam,

With reference cited above, I am directed to inform you that, the proposal of approval to the appointment of the following teacher(s) has been considered by the University and it has been decided to grant the same, as indicated below:-

Sr. No.	Subject	Name of the teacher	Designation	Status of Approval
01	-	Dr.Prashant Vinayakrao Solanke	Dean	w.e.f. 15/07/2024 to 14/07/2026 for two years only.
02	Anatomy	Dr. Amrut A. Mahajan	Professor	w.e.f. 15/07/2024 to 11/05/2025 for only. Age is above 64years
03	Anatomy	Dr.Sarika Prakash kate	Associate Professor	*w.e.f. 15/07/2024 to 14/07/2026 for two years only.
04	Anatomy	Dr.Shubhangi B.Ghule Nee: Shubhangi K. Wagh	Associate Professor	w.e.f. 15/07/2024 to 14/07/2026 for two years only.
05	Anatomy	Dr. Preeti Pandurang Pawde	Assistant Professor	w.e.f. 15/07/2024 to 14/07/2026 for two years only.
06	Physiology	Dr.Shingne Ranjana Chandrakant	Associate Professor	w.e.f. 15/07/2024 to 14/07/2026 for two years only
07	Physiology	Dr. Santosh Kumar Jha	Assistant Professor	*w.e.f. 15/07/2024 to 14/07/2026 for two years only.
08	Biochemistry	Dr.Nilima Vivek Patil	Professor	*w.e.f. 15/07/2024 to 14/07/2026 for two years only
09	Biochemistry	Dr. Randhir Kumar Pande	Assistant Professor	*w.e.f. 15/07/2024 to 14/07/2026 for two years only.
10	Pharmacology	Dr. Devendra R. Chaudhari	Professor	w.e.f. 15/07/2024 to 14/07/2026 for two years only.
11	Pharmacology	Dr. Suyog S. Chopade	Associate Professor	w.e.f. 15/07/2024 to 14/07/2026 for two years only.
12	Pharmacology	Dr. Bapurao M. Bite	Assistant Professor	w.e.f. 15/07/2024 to 14/07/2026 for two years only.
13	Pathology	Dr. Dhananjay Shridhar Borole	Professor	w.e.f. 15/07/2024 to 14/07/2026 for two years only.
14	Pathology	Dr. Nitin M. Bharambe	Associate Professor	*w.e.f. 15/07/2024 to 14/07/2026 for two years only.

Sub.: Regarding Conduct of University Practical Examinations and Assessment of Theory Papers.

Sir/Madam,

1. I am directed to inform you that Board of Examinations is pleased to appoint you as an 'Convenor/Examiner'. The details of your assignments are given in Appendix-A mentioned below. Please keep your appointment strictly confidential and address all the correspondance in connection to the Controller of Examinations.
2. This appointment is issued subject to the assumptions mentioned below:-
   - That none of you has any relation of the following type appearing in the class and faculty for which your appointment is made, at this examination of the University:-
     wife, husband, son, daughter, grand-son, grand-daughter, brother, sister, nephew, niece, uncle, grand-nephew, grand-niece, aunt, first cousin, son-in-law, daughter-in-law, brother-in-law and sister-in-law.
     (N.B. - Son, daughter, brother or sister will be understood to include also step-son, step-daughter, step-brother or step-sister as the case may be.)
   - That none of you is debarred from examination work by the parent or any other University.
   - That you are not a member of Board of Examinations.
   - That you are not undergoing Post Graduate examination of this University.
3. You are required to be in touch with the Principal and the Convenor for further details. Kindly specify your acceptance or non-acceptance online or by email to email id and telphone numbers to this office with a copy to the Convenor.
4. Kindly also note that during the period of Practical Examination, you will be given a job of assessment of Theory Answerbooks and you will not be permitted to leave the Exam Centre without completion of the said task. Valuation of Theory manuscripts is compulsory if allotted.
5. **Sr. External Examiner should be held responsible for checking IA marks of concerned subject as per norms of respective central council / commission.**
6. Your reply should reach the University within 7 days from the receipt of the appointment by SMS/Email/etc.; otherwise it will be teated as your non-acceptance for the same.
7. Please note that the University examination work is mandatory as per the provisions of Section-63(g) of the MUHS Act 1998. If it is refused without substantial ground, disciplinary action shall be initiated.
8. Please intimate this office, if you are holding any other appointment of the University, other than this appointment.
9. Your kind cooperation in smooth functioning of the examination is solicited.

Staff Performance Self-Appraisal Report

Academic Year: From 01/08/2024 to 31/07/2025

Name of Faculty	Dr. Suyog Sudhakar Chopade		
Qualification	MBBS, MD. Pharmacology	**Designation:**	Professor
Department	Pharmacology	**Date of Joining**	12/9/2011
University Approved faculty with Date	15/7/2024 to 14/7/2026	**Total Teaching Exp.:**	15 years

SECTION- I.
Teaching Learning and Evaluation: (Total Credit Points:40)

A. Teaching Load Details (15 Credit Points) — **To be filled by Faculty**

No. of Lectures /Practical Scheduled	No. of Lectures/ Practical Conducted	No. of Tutorials/ SGD Scheduled	No. of Tutorials/ SGD Conducted	No. of Seminar/ Demonstration Scheduled	No. of Seminar/ Demonstration Conducted	Overall Percentage of Attendance	Result of Subject
25	25/5	2	2	5	5		

Guidelines for Evaluation: - Teaching Load Conducted
(100% or more: 15 credit points ; 90 – 99 conducted: 12 credit points ; 80 – 89 % conducted: 9 credit points;
70 – 79 % conducted: 6 credit points; Below 69% conducted: 3 credit points)

B. Teaching Load Academic Schedule Details: (25 Credit Points) — **To be filled by Faculty**

Use of Pedagogical Aids in T-L method (5 credit points)	Paper setting/ Paper checking Departmental work (5 credit points)	Efforts taken for improvement of Students performance (5 credit points)	Project Guided to Students (5 credit points)	Funded Research Projects Undertaken (5 credit points)
5	5	5	-	-

SECTION: II
Research, Academic Contribution and Professional Achievements: (Total Credit Points:60)

A. Examination Duties at University level / College level: (10 credit points) — **To be filled by faculty**

Sr	Examination	Centre	Worked as External / Internal	Duration in Days
1.	MBBS (Internal)	DUPMC & H	Internal	20
2.	MBBS (University)	DUPMC & H	Internal	7
3.	CCMP	DUPMC & H	Internal	2
4.				
5.				

Guidelines for Evaluation: Duration of Examination: 1 day one credit point. Maximum 10 credit points

B. Research Article Published in National, International Journal / Book Chapter Published				
First author: 7 Credit Point /Activity; Second author: 5 Credit Point /Activity. (Max. 2 activity)				
1.	Title			
	Name of Journal		ISSN/ISBN No.	
	Indexed In		Author Order	
	Publication Details	Year/Volume/Issue/Page Number		
2.	Title of Book			
	Publisher		ISBN No.	
	Publication Details	Edition / Year		

C. Paper / Poster presented in conference				
5 Credit Point /Activity (Max. 2 activity)				
1,	Title of Paper / Poster	12th Dr Mohan International Diabetes Update 2025		
	Conference Details	Organized by Dr Mohan Diabetes Edu at Academy		
		Place and Date 25th to 27th July 2025, Chennai,		
2.	Title of Paper / Poster			
	Conference Details	Organized by		
		Place and Date		

1X Grand Okola

D. Seminar/ Conference/ Workshop/ CPD/ FDP, etc Participated				
5 Credit Point /Activity (Max. 2 activity)				
Sr	Name of Program	Place & Date	Duration	Organized by
1.				
2.				

E. Contribution as Resource Person, Invited speaker, Reviewer, Session Chair, Members of Conference Committee (Not organized by own institute) / Patent/ Copy right				
8 Credit Point /Activity (Max. 2 activity)				
Sr	Name of Program	Place & Date	Contribution as	Organized by
1.				
2.				
Attached copy of all relevant document for Section II				

SECTION- III

Extension and Co-Curricular activities with Professional Development: (Total Credit Point: 30)

A. Participation in organizing curricular/ co-curricular/ extracurricular activities

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.				
2.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

B. Contribution in UG/PG Admission process/ Counselling/ Institutional Development (NAAC/NABH etc)

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.				
2.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

C. Participation in Administrative and other responsibility

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.				
2.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

SECTION- IV

Involvement of staff in other Activities/ Additional Academic Progress: (Total Credit Point: 20)

A. MoU made with organization/ Alumni work

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

B. Additional degree/ super speciality degree/ Ph.D./

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Program (course)	Place & Registration Date	Duration of Program	Present Status
1.				

C. Short courses / online courses done by faculty

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Course	Conducted by	Course Duration	Date of Result
1.				
2.				

Attached copy of all relevant document

D. Any Award / Appreciation Certificate (Not from own Institution) received by faculty

5 Credit Point /Award or Appreciation Certificate (Max. 1 Consider)

Sr	Name of Award	Place & Date	Local/ State/ any other	Awarding agency
1.				
2.				

Attached copy of all relevant document

SECTION- V
Other Information

A. Leave taken by faculty / Absent from the Institute with details: (From 01/08/2024 to 31/07/2025)

C.L	S.L	P.L	C-off	SPL	LWP

B. Memos received during said assessment year:

Declaration:

I, Dr. Suyog Sudhakar Chopade., faculty of PHARMACOLOGY Department, hereby declare that the information provided is true and complete to the best of my knowledge.

Date: 27/7/25

Place: Jalgaon Kh.

Staff Performance Self-Appraisal Report
Academic Year: From 01/08/2024 to 31/07/2025

Name of Faculty	Dr. BAPURAO MOTIRAM BITE		
Qualification	MSc (medical). PhD (medical)	**Designation:**	ASSOCIATE PROFESSOR
Department	PHARMACOLOGY	**Date of Joining**	5/12/2012
University Approved faculty with Date	15/7/24 to 14/7/26	**Total Teaching Exp.:**	14 yrs

SECTION- I.
Teaching Learning and Evaluation: (Total Credit Points:40)

A. Teaching Load Details (15 Credit Points) — **To be filled by Faculty**

No. of Lectures /Practical Scheduled	No. of Lectures/ Practical Conducted	No. of Tutorials/ SGD Scheduled	No. of Tutorials/ SGD Conducted	No. of Seminar/ Demonstration Scheduled	No. of Seminar/ Demonstration Conducted	Overall Percentage of Attendance	Result of Subject
40/7	40/7	4	4	6	6	100%	

Guidelines for Evaluation: - Teaching Load Conducted
(100% or more: 15 credit points ; 90 – 99 conducted: 12 credit points ; 80 – 89 % conducted: 9 credit points;
70 – 79 % conducted: 6 credit points; Below 69% conducted: 3 credit points)

B. Teaching Load Academic Schedule Details: (25 Credit Points) — **To be filled by Faculty**

Use of Pedagogical Aids in T-L method (5 credit points)	Paper setting/ Paper checking Departmental work (5 credit points)	Efforts taken for improvement of Students performance (5 credit points)	Project Guided to Students (5 credit points)	Funded Research Projects Undertaken (5 credit points)
5	5	5	5	0

SECTION: II
Research, Academic Contribution and Professional Achievements: (Total Credit Points:60)

A. Examination Duties at University level / College level: (10 credit points) — **To be filled by faculty**

Sr	Examination	Centre	Worked as External / Internal	Duration in Days
1.	MBBS	DUPMCH JALGAON	Internal	20 days.
2.	CCMP	DUPMCH JALGAON	Expert	2 days.
3.	G-PAT	NMU, Jalgaon	Observer	1 day.
4.				
5.				

Guidelines for Evaluation: Duration of Examination: 1 day one credit point. Maximum 10 credit points

B. Research Article Published in National, International Journal / Book Chapter Published

First author: 7 Credit Point /Activity; Second author: 5 Credit Point /Activity. (Max. 2 activity)

1.	Title	Study to Establish the Relationship between omeprazole (PPI) & Acute Intestinal helminthiasis (AIH)		
	Name of Journal	Journal of pharmacy and ~~Bioallied science~~	ISSN/ISBN No.	0976-4879
	Indexed In	PUBmed, scopus	Author Order	1
	Publication Details	Year/Volume/Issue/Page Number	S381-S383	
2.	~~Title of Book~~	- 3- papers published. -		
	Publisher		ISBN No.	
	Publication Details	Edition / Year		

C. Paper / Poster presented in conference

5 Credit Point /Activity (Max. 2 activity)

1,	Title of Paper / Poster	NATIONAL PHARMACOVIGILANCE WEEK - 2024		
	Conference Details	Organized by JSS ~~AHEDCOLLEGE~~ OF PHARMACY- MYSORU		
		Place and Date		
2.	Title of Paper / Poster			
	Conference Details	Organized by		
		Place and Date		

D. Seminar/ Conference/ Workshop/ CPD/ FDP, etc Participated

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Program	Place & Date	Duration	Organized by
1.	26th MHIAPSMIPHA CON 2025	DUPMC & H	2	Department of Community Medicine IPHA.
2.	Workshop	DUPMC & H Jalgaon	1 1/3 day	IPHA.

E. Contribution as Resource Person, Invited speaker, Reviewer, Session Chair, Members of Conference Committee (Not organized by own institute) / Patent/ Copy right

8 Credit Point /Activity (Max. 2 activity)

Sr	Name of Program	Place & Date	Contribution as	Organized by
1.	Prize Distribution	DSTS 'mandals college of Pharmacy, Solapur	Chief Guest/ Speaker	Institute
2.				

Attached copy of all relevant document for Section II

SECTION- III

Extension and Co-Curricular activities with Professional Development: (Total Credit Point: 30)

A. Participation in organizing curricular/ co-curricular/ extracurricular activities

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	Anti-Ragging	Member, convener squad member	Anti-Rigging programme	12 August to 18 August 2014
2.	MET	member	FDP	1 hr.

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

B. Contribution in UG/PG Admission process/ Counselling/ Institutional Development (NAAC/NABH etc)

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	IQAC	member	NAAC	1 year.
2.	STUDENT welfare	coordinator	MUHS. student welfare	1 year.

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

C. Participation in Administrative and other responsibility

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	HOSTEL	Member	Hostel Related work	1 year.
2.	FEES MONITORING	member	Academic & Tution, Hostel, mess Fees	1 year.

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

SECTION- IV

Involvement of staff in other Activities/ Additional Academic Progress: (Total Credit Point: 20)

A. MoU made with organization/ Alumni work

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	—	—	—	—

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

B. Additional degree/ super speciality degree/ Ph.D./

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Program (course)	Place & Registration Date	Duration of Program	Present Status
1.	PhD	DMIHER WARDHA July 2020	4 year. 6 month	Completed.

C. Short courses / online courses done by faculty

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Course	Conducted by	Course Duration	Date of Result
1.	–	–	–	–
2.	–	–	–	–

Attached copy of all relevant document

D. Any Award / Appreciation Certificate (Not from own Institution) received by faculty

5 Credit Point /Award or Appreciation Certificate (Max. 1 Consider)

Sr	Name of Award	Place & Date	Local/ State/ any ~~other~~	Awarding agency
1.	Excellence in Research	DMIHER. WARDHA. 8 JAN 2025	University	DMIHER, Preclinical centre.
2.				

Attached copy of all relevant document

SECTION- V
Other Information

A. Leave taken by faculty / Absent from the Institute with details: (From 01/08/2024 to 31/07/2025)

C.L	S.L	P.L	C-off	SPL	LWP

B. Memos received during said assessment year:

Declaration:

I, Dr. BAPURAO MOTIRAM BITE, faculty of PHARMACOLOGY Department, hereby declare that the information provided is true and complete to the best of my knowledge.

Date: 24/7/2015

Place: JALGAON

(Name & Sign of Faculty)

ABSTRACT

Introduction: Proton pump inhibitors (PPIs) are the most commonly used drug worldwide. PPIs are benzimidazole derivatives and are basic in nature; therefore, they are dispensed in enteric-coated tablets or capsules to avoid degradation from gastric acid. **Aim:** Study to establish the relationship between omeprazole (PPI) and acute interstitial nephritis (AIN). **Objective:** To find the effect of PPI alone, PPI with diclofenac, PPI with ofloxacin on renal function tests. **Methods:** In the present study, we are analyzing PPI (omeprazole) as a main group. The group is again divided into three subgroups containing six rats in each. The relation between PPI and AIN is observed by the administration of PPI alone. To find this relation, we combine the PPI with nonsteroidal anti-inflammatory drug (NSAID) diclofenac and the antimicrobial agent ofloxacin. **Results:** Omeprazole 20 mg/kg/day alone showed a statistically significant difference in serum creatinine and blood urea values. Omeprazole 20 mg/kg/day and ofloxacin 60 mg/kg/day did not show a statistically significant difference in serum creatinine and blood urea values. Omeprazole 20 mg/kg/day and diclofenac showed statistically significant difference in serum creatinine and blood urea values. **Conclusion:** With longer administration of PPIs, it did produce derangement of renal function tests (RFTs), and with concurrent administration of drugs like ofloxacin and diclofenac, it hastened the process of renal damage as indicated by deranged RFTs.

KEYWORDS: *AIN, diclofenac, ofloxacin, proton pump inhibitors*

INTRODUCTION

Proton pump inhibitors (PPIs) are the most commonly used drug worldwide. PPIs are benzimidazole derivatives and are basic in nature; therefore, they are dispensed in enteric-coated tablets or capsules to avoid degradation from gastric acid. When PPIs are administered by oral route of administration, they get absorbed from the small intestine and cross the acidic parietal cell canaliculus. In this acidic environment, PPI is activated and produces a sulfenamide form of the drug. This activated form binds with the H^+ K^+ ATPase enzyme covalently, which results in irreversible inhibition of acid secretion. Though the half-life of these drugs is short, the effect remains for a longer duration as the parietal cell must have to produce newer proton pumps to release the gastric acid into the stomach.[1]

In 1996, around 1.7 million prescriptions of PPI were dispensed in Australia,[2] while till 2006, it was the third most frequently prescribed drug.[3] In the United States, only esomeprazole (Nexium™) was the second-ranked medicine sold in 2014 by price with 5,97,45,50,000 US dollars,[4] and by units prescribed, it was the fifth-ranked medication with 2,35,18,000 units,[5] other PPIs are not included in this. In New Zealand, till 2013 42.8% of prescriptions of omeprazole for registered patients were dispensed, which make it the third most widely prescribed drug.[6] Similarly, several drug utilization studies were carried out in India, which show that the use of proton pump inhibitors varies from 45 to 85% in different conditions.[7-11] In 82.96% of patients suffering from chronic renal disease, PPI was used.[12] Another study of intravenous PPI utilization shows

that 89% of internal medicine ward patients and 34.04% of patients in the surgery ward PPI were used.[13]

Material Methods

In the present study, we analyze PPI (omeprazole) as a main group. The group is again divided into three subgroups containing six rats in each.

The relation between PPI and AIN is observed by the administration of PPI alone. To find this relation, we combine the PPI with nonsteroidal anti-inflammatory drug (NSAID) diclofenac and the antimicrobial agent ofloxacin.

The total sample size for study is 18 Wistar rats. Healthy Wistar rats were included in the present study.

Rats with a weight of 150–250 grams and with an age of 180–220 days will be included.

Rats with deranged renal function test at 0 days will be excluded from the study. Simple random sampling will be used for the randomization. Wistar rats will be numbered and will be divided into subgroups with the help of random number tables.

In this animal study, the researcher plans to collect blood by retro-orbital blood withdrawal technique with aseptic precautions. Blood will be collected on 0th day (before giving the drug) and 28th day.

The collected blood will be analyzed for RFTs:

Serum Creatinine.

Blood Urea.

Results

Effect of omeprazole on RFTs

In Tables 1-6, omeprazole 20 mg/kg/day alone showed a statistically significant difference in serum creatinine and blood urea values between 0th day and 28th day.

Omeprazole 20 mg/kg/day and ofloxacin 60 mg/kg/day did not show a statistically significant difference in serum creatinine and blood urea values between 0th day and 28th day.

Omeprazole 20 mg/kg/day and diclofenac showed a statistically significant difference in serum creatinine and blood urea values between 0th day and 28th day.

Discussion

In an animal experimental study, we found that in the dose of omeprazole 20 mg/kg/day there is a significant difference in the serum creatinine levels before and after the last administration of the drug. The drugs that were used were obtained from standard sources and animal doses were extrapolated from human doses.

We observed in all cases of AIN that variable degree of vascular damage and inflammatory response, leading to structural damage, was present. As seen in our study, though the groups were homogenous not all animals suffered from this problem. As postulated[3,14] by some researchers, this can be attributed to idiosyncratic reaction.

It is possible to infer that if we would have stopped the drug at the first confirmed sign of deranged renal function, we could have seen a reversal of the damage and confirmation of the postulate.[3,14,15]

The increased levels of IL-18 in posttest than the pretest are seen significant which is also supported by the histopathological studies that inflammatory changes are seen in most of the animals' kidneys.

Conclusion

With longer administration of PPIs, it did produce derangement of renal function tests (RFTs), and with concurrent administration of drugs like ofloxacin and diclofenac, it hastened the process of renal damage as indicated by deranged RFTs.

Our study indicated that PPI alone was able to induce inflammatory process in the kidney along with deranged RFT. When PPIs were coadministered along with diclofenac or ofloxacin, percentage of animals showing such an effect marginally increased. However, direct extrapolation of animal study results has limited importance; hence, longer and larger human pharmacovigilance data are needed.

Abstract

In India, utilization of PPI varies from 45 to 85%. PPIs were used in 82.96% of patients with chronic kidney disease. However, nowadays several case reports are suggesting PPI that induces AIN. The exact rate of this rare adverse event is difficult to estimate because many patients are taking multiple medications, which also make it difficult to establish a causal relation between AIN and PPI. Early detection of AIN and immediate discontinuation of the culprit drug may prevent the progress of AIN to the end stage of chronic kidney disease. So we planned a study to establish the relationship between PPI and AIN, if any.

Keywords: *AIN, diclofenac, ofloxacin, proton pump inhibitors*

Introduction

Proton pump inhibitors (PPI) are the class of drugs that covalently inhibit H^+K^+ ATPase (Hydrogen Potassium ATPase) enzyme in gastric parietal cells. "This class of drugs is more effective than Histamine H_2 receptor antagonist in reducing gastric acid secretion and in the treatment of acid-related disorders."[1]

CYP2C19 genotype is correlated with the magnitude of gastric acid suppression by PPI in patient with gastroesophageal reflux disorder (GERD). There is no evidence that the CYP2C19 genotype predicts clinical efficacy of these drugs.[2]

Chronic renal failure does not lead to accumulation with once-a-day dosing of PPI. Hepatic disease substantially reduces the clearance of esomeprazole and lansoprazole thus in patients with severe hepatic diseases. Hence, dose reduction is recommended for esomeprazole and lansoprazole in patients with hepatic functional impairment.[2]

The various case reports regarding PPI-induced acute interstitial nephritis (AIN) are published in various journals. This is supported by the data from the World Health Organization Collaborating Center (WHOCC) for International Drug Monitoring in Uppsala, Sweden.[3]

Gap analysis

The various studies regarding proton pump inhibitors (PPIs)-induced acute interstitial nephritis are published in various journals as depicted in below Table 1.

The above-mentioned research and its conclusions are based on case report, retrospective case review, and review articles; we have planned to present a study to fulfill the gap. Acute interstitial nephritis (AIN) is a class effect of proton pump inhibitors (PPIs) or acute interstitial nephritis (AIN) is aggravated by ofloxacin and diclofenac [Table 1].

Aim

To establish the relationship between proton pump inhibitors (PPIs) and acute interstitial nephritis (AIN).

Objectives

a) To find the effect of PPI alone, PPI with diclofenac, and PPI with ofloxacin on renal function tests of rat.
b) To find the effect of PPI alone, PPI with diclofenac, and PPI with ofloxacin on IL-18 of rat.
c) To find the effect of PPI alone, PPI with diclofenac,

and PPI with ofloxacin on renal histopathology of rat.

Hypothesis

H_{11}: There will be a significant difference in the average RFTs of rats due to the use of PPI alone.

H_{12}: There will be a significant difference in the average RFTs of rats due to the use of PPI with diclofenac.

H_{13}: There will be a significant difference in the average RFTs of rats due to the use of PPI with ofloxacin.

H_{14}: There will be a significant difference in the average IL-18 levels of rats before and after use of PPI alone, PPI with diclofenac, and PPI with ofloxacin.

Methods

Animal Experimental Study design-

In the present study, we are analyzing four PPIs, omeprazole, pantoprazole, rabeprazole, and ilaprazole as a main group. Each group is again divided into three subgroups containing six rats in each. The relation between PPI and AIN is observed by the administration of PPI alone.

To find this relation, we are combining the PPI with nonsteroidal anti-inflammatory drug (NSAID) diclofenac (10 mg/kg/day) and the antimicrobial agent ofloxacin (60 mg/kg/day). The grouping of various drugs is as follows [Table 2].

We will compare these groups with AIN induced by puromycin amino nucleoside 15 mg/100 gm of BW diluted in normal saline (NaCl 0.9 g/100 ml)[5] or by aminoglycosides.

Sample size

The total sample size required for the study is 78 Wistar rats. In the control group six Wistar rats are observed, and in the experimental group (test group), 72 Wistar rats are observed.

The sample size is decided according to previous animal studies.[6]

Inclusion and exclusion criteria

Healthy Wistar rats will be included in the present study.

Rats with a weight of 150–250 grams and with an age of 180–220 days will be included.

Rats with deranged renal function test at 0 days will be excluded from the study.

Outcome measures

In this animal study, the researcher plans to collect blood by retro-orbital blood withdrawal technique with aseptic precautions. Blood will be collected on 0^{th} day (before giving the drug), 7^{th}, 14^{th}, 21^{st} and 28^{th} day. Urine will be collected on 0^{th} day (before giving the drug) and on 28^{th} day.

The collected blood will be analyzed for RFTs:

Serum Creatinine

Blood Urea

Blood Urea Nitrogen (BUN)

Interleukin 18 (IL-18)

Animals showing deranged renal function tests (RFTs), values at 28^{th} day will be separated group wise, from these 2 animals will be sacrificed and their kidneys will be collected in 10% formalin for histopathological analysis.

Table 1: Shows research study gap

Author	Title	Study type	Conclusion of study	Present study plan
Ra and Sheldon[1]	Acute interstitial nephritis due to pantoprazole	A case report	Physician should be aware that drug-induced AIN can be associated with proton pump inhibitors.	Does acute intestinal nephritis is caused by PPI to answer this question we have planned the present study?
Nimeshan Geevasinga *et al*.[4]	Proton pump inhibitors and acute interstitial nephritis	Retrospective case review	With the evermore widespread use of this class of medication, PPI-induced acute interstitial nephritis (AIN) is likely to be more frequent.	Acute interstitial nephritis is a class effect. To evaluate this, we are using the drugs omeprazole pantoprazole, rabeprazole, and ilaprazole.

Table 2: Puromycin amino nucleoside 15 mg/100 gm of BW diluted in normal saline or by aminoglycosides (six animals)

Test drugs	Omeprazole	Pantoprazole	Rabeprazole	Ilaprazole

Experimental animals

Rat—as experimental animal

Strain—Albino

Species—Wistar

Weight—150–250 mg

Age—180–210 days

Sex—Male and female Wistar rats

Animal care monitoring

Heathy Wistar rats of either sex weighing 150–250 mg and aged 180–210 days will be used for the present study. Animals will be kept in plastic ideal cages in central animal house of Datta Meghe Institute of Medical Sciences, Sawangi (Meghe), Wardha, Maharashtra, India. The animals will be selected and isolated a week prior to the study. They will be maintained in standard condition at 25°C ± 2°C temperature and 12 hrs light/dark cycle.

Animals will be provided with a standard pellet diet and water will be allowed adlib throughout the course of the experiment. CPCSEA and Institutional Animal Ethics Committee guidelines will be followed throughout the study.

Expected results

We expect with an increased dose for a longer duration of administration of PPIs; it will produce a significant difference in average renal function tests (RFTs) values alone and PPIs with diclofenac and ofloxacin.

Diclofenac and ofloxacin will aggravate the process of renal damage by deranged RFTs, IL-18, and histopathological study.

Discussion

Omeprazole alone was not able to produce AIN at all three doses, rabeprazole at high dose and pantoprazole at all doses caused mild structural changes in the kidney. All the samples showed variable degree of inflammation, followed by structural damage.

While when PPI was used along with ofloxacin AIN developed, the vascular changes were more than structural changes along with inflammatory changes. When PPIs were used along with diclofenac, this combination showed AIN with mild to severe structural change in the kidney in most of the animals.[7]

The number indicates that not all animals were affected by this condition, barring only one group. PPIs alone were able to cause AIN, but the number of animals with AIN increased with the addition of diclofenac and ofloxacin. Such results are also reported in humans by Sierra *et al*.[8]

In all the cases of AIN, variable degree of vascular damage and inflammatory response, leading to structural damage, was present. Also, there was no obvious other cause of inflammation, like infection or environment-induced damage. Hence, it was safe to infer that this can strengthen the postulate of AIN after use of PPI may be of immunological origin.[3]

The present study will be discussed on the basis of observations, results, and study findings. Study Implication:

The present study will implicate observations, with an increased dose for a longer duration of administration of PPIs; it will produce derangement of renal function tests (RFTs) alone and PPIs with diclofenac and ofloxacin.

ABSTRACT

Introduction: Proton pump inhibitors (PPIs) are the most commonly used drug worldwide. PPIs are benzimidazole derivatives and are basic in nature; therefore, they are dispensed in enteric-coated tablets or capsules to avoid degradation from gastric acid. When PPIs are administered by oral route of administration, they get absorbed from small intestine and cross the acidic parietal cell canaliculus. In this acidic environment, PPI is activated and produces a sulfenamide form of the drug. This activated form binds with the H^+ K^+ ATPase enzyme covalently, which results in irreversible inhibition of acid secretion **Aim:** Study to establish the relationship between rabeprazole (PPI) and acute interstitial nephritis (AIN). **Objective:** To find the effect of PPI alone, PPI with diclofenac, PPI with ofloxacin on renal function tests. **Methods:** In the present study, we are analyzing PPI (omeprazole) as a main group. The group is again divided into three subgroups containing six rats in each. The relation between PPI and AIN is observed by the administration of PPI alone. To find this relation, we combine the PPI with nonsteroidal anti-inflammatory drug (NSAID) diclofenac and antimicrobial agent ofloxacin. **Results:** Rabeprazole 20 mg/kg/day alone showed a statistically significant difference in serum creatinine and blood urea values. Rabeprazole 20 mg/kg/day and ofloxacin 60 mg/kg/day did not show a statistically significant difference in serum creatinine and blood urea values. Rabeprazole 20 mg/kg/day and diclofenac showed a statistically significant difference in serum creatinine and blood urea values. **Conclusion:** With longer administration of PPIs, it did produce derangement of renal function tests (RFTs), and with concurrent administration of drugs like ofloxacin and diclofenac, it hastened the process of renal damage as indicated by deranged RFTs.

Introduction

Proton pump inhibitors (PPIs) are the most commonly used drug worldwide. PPIs are benzimidazole derivatives and are basic in nature; therefore, they are dispensed in enteric-coated tablets or capsules to avoid degradation from gastric acid. When PPIs are administered by oral route of administration, they get absorbed from the small intestine and cross the acidic parietal cell canaliculus. In this acidic environment, PPI is activated and produces a sulfenamide form of the drug. This activated form binds with the H^+ K^+ ATPase enzyme covalently, which results in irreversible inhibition of acid secretion. Though the half-life of these drugs is short, the effect remains for a longer duration as the parietal cell must have to produce newer proton pumps to release the gastric acid into the stomach.[1]

In 1996, around 1.7 million prescriptions of PPI were dispensed in Australia,[2] while till 2006, it was the third most frequently prescribed drug.[3] In United States, only esrabeprazole (Nexium™) was the second-ranked medicine sold in 2014 by price with 5,97,45,50,000 US dollars,[2] and by units prescribed, it was the fifth-ranked medication

with 2,35,18,000 units;[4] other PPIs are not included in this. In New Zealand, till 2013 42.8% prescriptions of rabeprazole for registered patients were dispensed, which make it third most widely prescribed drug.[5] Similarly several drug utilization studies were carried out in India, which show that the use of proton pump inhibitors varies from 45 to 85% in different conditions.[6-8] In 82.96% of patients suffering from chronic renal disease, PPI was used.[9] Another study of intravenous PPI utilization shows that 89% of internal medicine ward patients and 34.04% of patients in surgery ward PPI were used.[10]

Material Methods

In the present study, we analyze PPI (omeprazole) as a main group. The group is again divided into three subgroups containing six rats in each.

The relation between PPI and AIN is observed by the administration of PPI alone. To find this relation, we combine the PPI with nonsteroidal anti-inflammatory drug (NSAID) diclofenac and the antimicrobial agent ofloxacin.

The total sample size for the study is 18 Wistar rats. Healthy Wistar rats were included in the present study.

Rats with a weight of 150–250 grams and with an age of 180–220 days will be included.

Rats with deranged renal function test at 0 days will be excluded from the study. Simple random sampling will be used for the randomization. Wistar rats will be numbered and will be divided into subgroups with the help of random number tables.

In this animal study, the researcher plans to collect blood by retro-orbital blood withdrawal technique with aseptic precautions. Blood will be collected on the 0th day (before giving the drug) and 28th day.

The collected blood will be analyzed for RFTs:

Serum Creatinine.

Blood Urea.

Results and Observations

Effect of rabeprazole on RFTs

Rabeprazole 20 mg/kg/day alone did not show a statistically significant difference in serum creatinine and blood urea values between the 0th day and 28th day [Tables 1-6]. Rabeprazole 20 mg/kg/day alone showed a statistically significant difference in blood urea values between the 0th day and 28th day.

Rabeprazole 20 mg/kg/day and ofloxacin 60 mg/kg/day did not show a statistically significant difference in serum creatinine and blood urea values between the 0th day and 28th day.

Table 1: Effect of rabeprazole 20 mg/kg/day on serum creatinine

28th day	6	51.02±15.16		

Rabeprazole 20 mg/kg/day and diclofenac did not show a statistically significant difference in serum creatinine and blood urea values between the 0th day and 28th day.

Discussion

In an animal experimental study, we found that in the dose of rabeprazole 20 mg/kg/day there is a significant difference in the serum creatinine levels before and after the last administration of the drug. The drugs that were used were obtained from standard sources and animal doses were extrapolated from human doses.

We observed in all cases of AIN that variable degree of vascular damage and inflammatory response, leading to structural damage, was present. As seen in our study,

though the groups were homogenous not all animals suffered from this problem. As postulated[2,11] by some researchers, this can be attributed to idiosyncratic reaction.

It is possible to infer that if we would have stopped the drug at the first confirmed sign of deranged renal function, we could have seen a reversal of the damage and confirmation of the postulate.[2,11,12]

The increased levels of IL-18 in the posttest than the pretest are seen significant which is also supported by the histopathological studies that inflammatory changes are seen in most of the animals' kidneys.

Conclusion

With longer administration of PPIs, it did produce derangement of renal function tests (RFTs), and with concurrent administration of drugs like ofloxacin and diclofenac, it hastened the process of renal damage as indicated by deranged RFTs.

Our study indicated that PPI alone was able to induce inflammatory process in the kidney along with deranged RFT. When PPIs were coadministered along with diclofenac or ofloxacin, the percentage of animals showing such an effect marginally increased. However, direct extrapolation of animal study results has limited importance; hence, longer and larger human pharmacovigilance data are needed.

Staff Performance Self-Appraisal Report

Academic Year: From 01/08/2024 to 31/07/2025

Name of Faculty	NAMITA UMESHBABU KATTAMPALI PUCHALI		
Qualification	M.Sc MEDICAL PHARMACOLOGY	**Designation:**	TUTOR
Department	PHARMACOLOGY	**Date of Joining**	18th MARCH 2023
University Approved faculty with Date		**Total Teaching Exp.:**	

SECTION- I.
Teaching Learning and Evaluation: (Total Credit Points:40)

A. Teaching Load Details (15 Credit Points) — To be filled by Faculty

No. of Lectures /Practical Scheduled	No. of Lectures/ Practical Conducted	No. of Tutorials/ SGD Scheduled	No. of Tutorials/ SGD Conducted	No. of Seminar/ Demonstration Scheduled	No. of Seminar/ Demonstration Conducted	Overall Percentage of Attendance	Result of Subject
-	~~10~~ -	10	10	6	6	98%	

Guidelines for Evaluation: - Teaching Load Conducted
(100% or more: 15 credit points ; 90 – 99 conducted: 12 credit points ; 80 – 89 % conducted: 9 credit points;
70 – 79 % conducted: 6 credit points; Below 69% conducted: 3 credit points)

B. Teaching Load Academic Schedule Details: (25 Credit Points) — To be filled by Faculty

Use of Pedagogical Aids in T-L method (5 credit points)	Paper setting/ Paper checking Departmental work (5 credit points)	Efforts taken for improvement of Students performance (5 credit points)	Project Guided to Students (5 credit points)	Funded Research Projects Undertaken (5 credit points)
-	5	5	-	-

SECTION: II
Research, Academic Contribution and Professional Achievements: (Total Credit Points:60)

A. Examination Duties at University level / College level: (10 credit points) — To be filled by faculty

Sr	Examination	Centre	Worked as External / Internal	Duration in Days
1.	MBBS (1st, 2nd, Prelim)	DUPMC & H, Jalgaon	Internal	20
2.	MBBS (MUHS)	DUPMC & H, Jalgaon	Internal (Expert)	7
3.	MBBS (MUHS) Repeater)	DUPMC & H Jalgaon	Internal (Expert)	1
4.				
5.				

Guidelines for Evaluation: Duration of Examination: 1 day one credit point. Maximum 10 credit points

B. Research Article Published in National, International Journal / Book Chapter Published

First author: 7 Credit Point /Activity; Second author: 5 Credit Point /Activity. (Max. 2 activity)

1.	Title			
	Name of Journal		ISSN/ISBN No.	
	Indexed In		Author Order	
	Publication Details	Year/Volume/Issue/Page Number		
2.	Title of Book			
	Publisher		ISBN No.

ABSTRACT

Quality improvement (QI) in healthcare is pivotal for enhancing patient outcomes, safety, and system efficiency. This cross-sectional study explores the perceptions of QI among 100 MBBS students and interns from NIMS University, Jaipur, Rajasthan, and 60 nursing staff from Government Medical College, Greater Noida, Uttar Pradesh. Using a validated Likert-scale questionnaire, we assessed awareness, attitudes, and engagement with QI initiatives. Findings revealed moderate to high awareness among medical students, with interns demonstrating greater familiarity with QI tools such as Plan-Do-Study-Act (PDSA) cycles. Nursing staff exhibited practical engagement but limited formal training in QI methodologies. Barriers included lack of structured training, hierarchical constraints, and limited interprofessional collaboration. The study underscores the need for integrated QI education across disciplines and recommends institutional support for capacity building. These insights can inform curriculum reforms and policy-level interventions to foster a culture of continuous improvement in tertiary care settings.

Keywords: *Quality improvement, medical education, nursing staff, tertiary care, perceptions, interprofessional collaboration*

1. INTRODUCTION

Quality improvement (QI) is a systematic approach to enhancing healthcare delivery by identifying inefficiencies and implementing evidence-based changes. In India, tertiary care hospitals serve as critical hubs for specialized services, making QI initiatives essential for patient safety and operational excellence. Medical students and nursing staff are frontline contributors to care delivery, yet their engagement with QI remains underexplored.

A useful instrument for evaluating the results of hospital treatment is the patient satisfaction survey. Since many patients come to the outpatient department (OPD) for clinical services, it is an extremely important element of any hospital's offerings. Data on the quality of services provided by OPD will be used for two purposes: to pinpoint areas where the services provided need to be improved and to draw attention to the need of remedial measures. Every hospital aims to achieve patient happiness, which is the primary factor in determining the quality of patient treatment.

2. LITERATURE REVIEW

Global literature highlights the necessity of experiential learning in QI for medical students and healthcare workers. Previous studies have shown that hands-on involvement leads to improved awareness and better patient outcomes. In India, there is growing recognition of the need for interprofessional collaboration in QI projects.

A cross-sectional, *Nilakantam, (2021) et al* by descriptive study was conducted among 600 patients using a structured questionnaire for assessing the levels of patient satisfaction. The overall satisfaction rate in this study was 97.2%, with major satisfiers being clinical care provided by doctors and nursing staffs and few patients were not satisfied with cleanliness of toilets and medications' availability.

Patient satisfaction survey may be a good audit tool and it should be used to improve the standard of services. According to the patient's opinion, the study showed good satisfaction with respect to reception and registration services, physical facilities, doctor's services, nursing services, laboratory services, and pharmacy services. Few deficient areas are identified in terms of service delivery and the same will be bridged as early as possible to achieve universal patient satisfaction.

In a study conducted by *Clemmer et al*., a quasi-experimental, before-and-after trial was implemented to assess the impact of a structured quality improvement (QI) program on intensive care unit (ICU) outcomes and costs. The study, carried out in a tertiary ICU setting, analyzed patient data from 1991 to 1995 and utilized historical controls to account for external variables. The intervention included the application of statistical and scientific QI methods alongside efforts to transform ICU staff culture and clinical behavior. Outcomes such as severity of illness, ICU/hospital length of stay, mortality rates, and hospital costs were evaluated. The program led to marked improvements in clinical practices including glucose regulation, enteral nutrition, antibiotic administration, and sedation use, as well as reduced reliance on lab tests, radiographs, and blood gases. Importantly, a severity-adjusted hospital cost reduction of approximately $2.58 million (in 1991 dollars) was observed by 1995, with the majority of savings stemming from areas directly affected by the intervention, demonstrating that targeted quality enhancement strategies can improve patient care while significantly lowering expenses.

METHODOLOGY

A descriptive cross-sectional study was conducted in July 2025 at:
- NIMS University, Jaipur (100 MBBS students and interns)
- Government Medical College, Greater Noida (60 nursing staff)

Ethical Approval: Was not deemed to be necessary for this study.

Purposive sampling was used.
Inclusion criteria:
- Final-year MBBS students and interns
- Registered nursing staff with ≥1 year of clinical experience

A structured Likert-scale questionnaire was developed using validated tools such as the SERVQUAL model and BASiC-QI survey. Sections included:
- Awareness of QI concepts
- Attitudes toward QI
- Engagement in QI activities
- Perceived barriers and facilitators

Data were analyzed using SPSS v26. Descriptive statistics and chi-square tests were applied. Thematic analysis was used for qualitative responses.

3. RESULTS

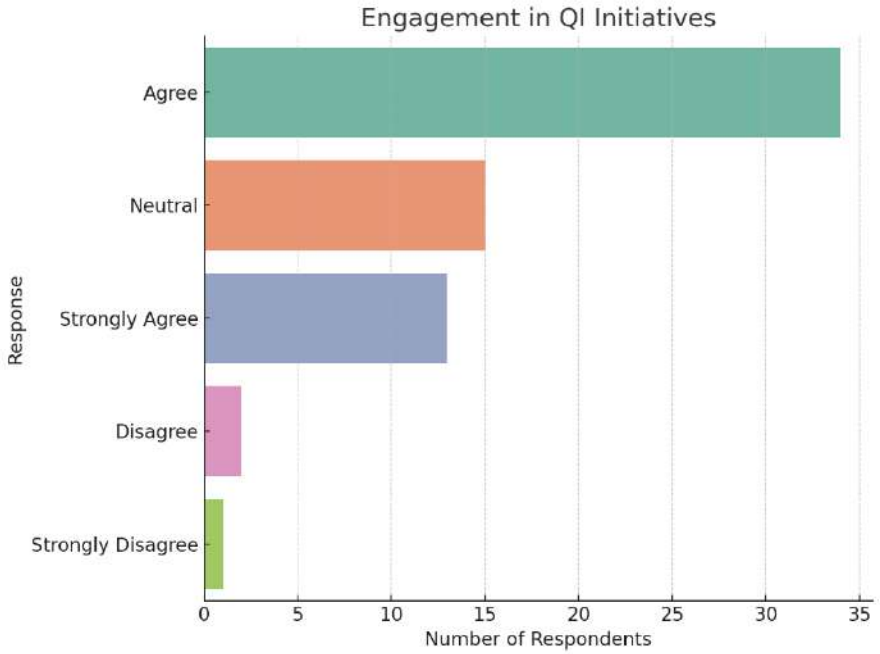

Awareness and Understanding:
- 82% of interns were familiar with QI terminology (e.g., PDSA cycles, root cause analysis).
- Only 56% of nursing staff reported formal exposure to QI concepts.

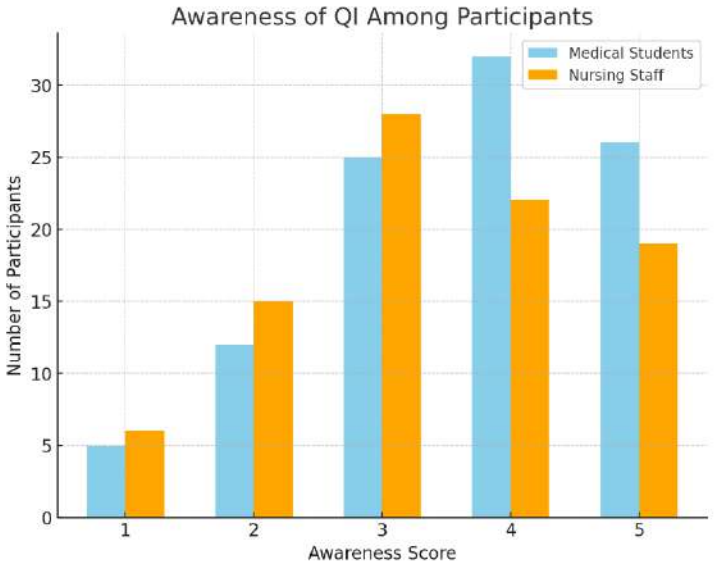

Attitudes Toward QI:

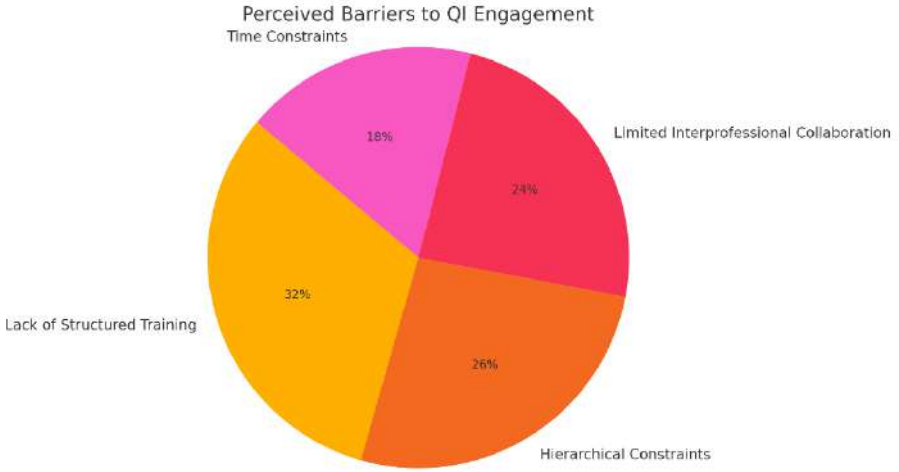

- 74% of medical students agreed that QI improves patient safety.
- 68% of nurses believed QI initiatives are often top-down and lack frontline input.

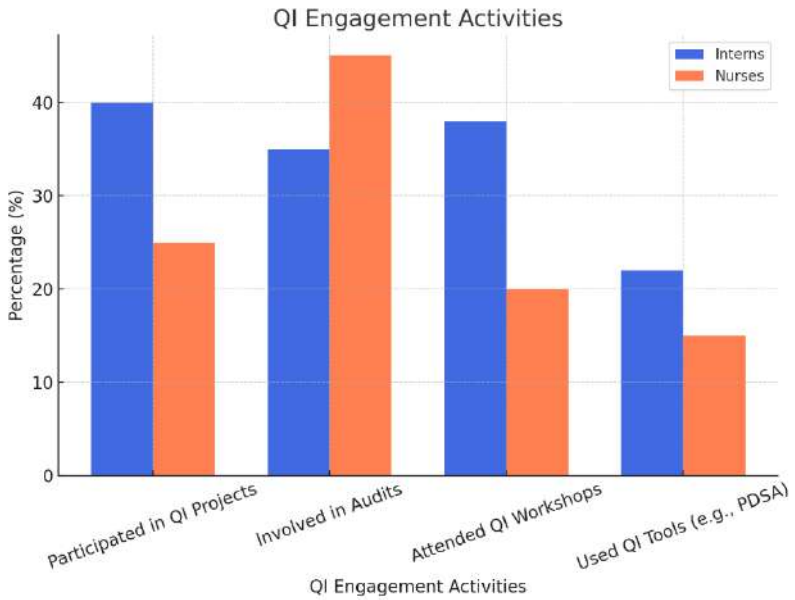

Engagement and Practice:
- 40% of interns had participated in QI projects.
- 52% of nurses reported informal involvement in QI (e.g., hand hygiene audits).

Barriers Identified:
- Lack of structured training (78%)
- Hierarchical constraints (65%)
- Limited interprofessional collaboration (59%)

4. DISCUSSION

The findings of the study resonate strongly with global research highlighting the importance of experiential learning in quality improvement (QI) education. Medical students, although well-versed in theoretical aspects of QI, often lacked the hands-on experience necessary to apply these principles effectively in clinical settings. In contrast, nurses, despite receiving little to no formal QI training, were able to contribute valuable practical insights drawn from their day-to-day clinical interactions. However, deeply entrenched organizational hierarchies and a general lack of interdisciplinary collaboration emerged as significant obstacles to the successful implementation of QI initiatives. These barriers often hinder open communication, limit the flow of ideas across professional boundaries, and create resistance to change. To address these challenges, it is essential for healthcare institutions to adopt structural reforms that promote a more inclusive and team-based culture. Furthermore, integrating experiential QI components into medical and nursing curricula can bridge the gap between theory and practice. This dual approach—targeting both educational design and institutional culture—can empower healthcare professionals at all levels to contribute more effectively to QI efforts, ultimately leading to improved patient outcomes and system-wide enhancements in care quality.

5. CONCLUSIONS

This study highlights varied perceptions and engagement levels with QI among medical students and nursing staff. Institutional reforms and educational strategies are essential to foster a culture of continuous improvement and patient-centered care in tertiary hospitals.

6. ACKNOWLEDGEMENTS

We thank NIMS University, Jaipur, and Government Medical College, Greater Noida, for facilitating data collection. We also appreciate the cooperation of all participants.

Staff Performance Self-Appraisal Report

Academic Year: From 01/08/2024 to 31/07/2025

Name of Faculty	Dr. Prashanth Kumar Guddeti		
Qualification	M. Sc., Ph. D. Medical Microbiology	**Designation:**	Associate Professor
Department	Microbiology	**Date of Joining**	02/05/2019
University Approved faculty with Date	Yes (UG & PG) upto 14/7/2026	**Total Teaching Exp.:**	10 years +

SECTION- I.
Teaching Learning and Evaluation: (Total Credit Points:40)

A. Teaching Load Details (15 Credit Points) — To be filled by Faculty

No. of Lectures /Practical Scheduled	No. of Lectures/ Practical Conducted	No. of Tutorials/ SGD Scheduled	No. of Tutorials/ SGD Conducted	No. of Seminar/ Demonstration Scheduled	No. of Seminar/ Demonstration Conducted	Overall Percentage of Attendance	Result of Subject
58	58	20	20	9	9	100%	completed

Guidelines for Evaluation: - Teaching Load Conducted
(100% or more: 15 credit points ; 90 – 99 conducted: 12 credit points ; 80 – 89 % conducted: 9 credit points;
70 – 79 % conducted: 6 credit points; Below 69% conducted: 3 credit points)

B. Teaching Load Academic Schedule Details: (25 Credit Points) — To be filled by Faculty

Use of Pedagogical Aids in T-L method (5 credit points)	Paper setting/ Paper checking Departmental work (5 credit points)	Efforts taken for improvement of Students performance (5 credit points)	Project Guided to Students (5 credit points)	Funded Research Projects Undertaken (5 credit points)
✓	✓	✓	✓	–

SECTION: II
Research, Academic Contribution and Professional Achievements: (Total Credit Points:60)

A. Examination Duties at University level / College level: (10 credit points) — To be filled by faculty

Sr	Examination	Centre	Worked as External / Internal	Duration in Days
1.	Winter 2024 2nd MBBS	DUPMC, Jalgaon	Internal (2nd & 4th Jan-25)	3 days.
2.	2nd MBBS	Vedanta Institute of Medical Sciences, Palghar	External	6th to 8th Jan-25 3 days.
3.	2nd MBBS	GMC, Sindhudurg	External	4 days 13 to 16 Jan-25
4.	2nd MBBS	HSBT MC & Cooper MC, Mumbai	External	15-4-25 (1 day)
5.	2nd MBBS	BKL Walawalkar R. ML, Ratnagiri	External	17/4/25 (1 day)

Guidelines for Evaluation: Duration of Examination: 1 day one credit point. Maximum 10 credit points

B. Research Article Published in National, International Journal / Book Chapter Published

First author: 7 Credit Point /Activity; Second author: 5 Credit Point /Activity. (Max. 2 activity)

1.	Title	Utility of CBS to combat AMR among the admitted pt in TCH		
	Name of Journal	I J A P	ISSN/ISBN No.	2753-6556
	Indexed In	Embase,	Author Order	2nd
	Publication Details	Year/Volume/Issue/Page Number	2024: 6(5): 1-7	
2.	Title of Book			
	Publisher	-	ISBN No.	-
	Publication Details	Edition / Year	-	

C. Paper / Poster presented in conference

5 Credit Point /Activity (Max. 2 activity)

1,	Title of Paper / Poster	Detection & Management of leprosy: A Case Report		
	Conference Details	Organized by	MHIAPS	MIPHA CON-2025
		Place and Date	Jalgaon	Jan-16, 17-18-2025
2.	Title of Paper / Poster	-	-	-
	Conference Details	Organized by	-	-
		Place and Date	-	-

D. Seminar/ Conference/ Workshop/ CPD/ FDP, etc Participated

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Program	Place & Date	Duration	Organized by
1.	Pre-Con. Workshop	Jalgaon	1 day (16th Jan 2025)	IAPSM&IPHA MH.
2.	Conference	Jalgaon	2 day (17&18 Jan 25)	IAPSM&IPHA MH

E. Contribution as Resource Person, Invited speaker, Reviewer, Session Chair, Members of Conference Committee (Not organized by own institute) / Patent/ Copy right

8 Credit Point /Activity (Max. 2 activity)

Sr	Name of Program	Place & Date	Contribution as	Organized by
1.	~~Nam~~ IAPSM & IPHA MH, Confe	Jalgaon & 16-18 Jan	Organising member	IAPSM & IPHA MH
		-	-	-
2.	-	-	-	-

Attached copy of all relevant document for Section II

SECTION- III

Extension and Co-Curricular activities with Professional Development: (Total Credit Point: 30)

A. Participation in organizing curricular/ co-curricular/ extracurricular activities

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	Sumanvay	member	Conducting Program	April - 2025
2.	Organ donation	Coordinator	Conduction of Program.	Aug - 2024

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points Member of committee- 2 credit points)

B. Contribution in UG/PG Admission process/ Counselling/ Institutional Development (NAAC/NABH etc)

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	IQAC	Coordinator	Organising NAAC data	Whole Year
2.	-	-	-	-

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points Member of committee- 2 credit points)

C. Participation in Administrative and other responsibility

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	IQAC	Coordinator	Organising NAAC data & Conducting Prog	Whole Year.
2.	-	-	-	-

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points Member of committee- 2 credit points)

SECTION- IV

Involvement of staff in other Activities/ Additional Academic Progress: (Total Credit Point: 20)

A. MoU made with organization/ Alumni work

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	-	-	-	-

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points Member of committee- 2 credit points)

B. Additional degree/ super speciality degree/ Ph.D./

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Program (course)	Place & Registration Date	Duration of Program	Present Status
1.	PhD in Medical Microbiology	Indore & 2019	5 year	Completed & Awarded.

C. Short courses / online courses done by faculty

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Course	Conducted by	Course Duration	Date of Result
1.	Research Methods in Health Promotion	IIT, Kharagpur NPTEL	12 weeks Jul-Oct-24	Oct-2024
2.	-	-	-	-

Attached copy of all relevant document

D. Any Award / Appreciation Certificate (Not from own Institution) received by faculty

5 Credit Point /Award or Appreciation Certificate (Max. 1 Consider)

Sr	Name of Award	Place & Date	Local/ State/ any other	Awarding agency
1.	-	-	-	-
2.	-	-	-	-

Attached copy of all relevant document

SECTION- V

		Place and Date		

D. Seminar/ Conference/ Workshop/ CPD/ FDP, etc Participated

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Program	Place & Date	Duration	Organized by
1.	Pre-Con-Workshop	Jalgaon (16th Jan 2025).	1 Day	IAPSM & IPHA MH.
2.	Conference	Jalgaon (17 & 18 Jan 25.	2 Days.	IAPSM & IPHA MH

E. Contribution as Resource Person, Invited speaker, Reviewer, Session Chair, Members of Conference Committee (Not organized by own institute) / Patent/ Copy right

8 Credit Point /Activity (Max. 2 activity)

Sr	Name of Program	Place & Date	Contribution as	Organized by
1.				
2.				

Attached copy of all relevant document for Section II

SECTION- III

Extension and Co-Curricular activities with Professional Development: (Total Credit Point: 30)

A. Participation in organizing curricular/ co-curricular/ extracurricular activities

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	G.C.2	Member	Cricket	7 days 9 April 25
2.	Culture Committee	member	Art Gallery opening	1 Days 9 April 25th

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points Member of committee- 2 credit points)

B. Contribution in UG/PG Admission process/ Counselling/ Institutional Development (NAAC/NABH etc)

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	NAAC	Criteria Incharge	Collection of Data & Activity	Till date
2.	C.R.2	Member	Helping UG student	Till Date

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points Member of committee- 2 credit points)

C. Participation in Administrative and other responsibility

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	Minority Committee	Incharge	over all activity observation	Till Date
2.	HICC	member	JC	Till Date

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points Member of committee- 2 credit points)

SECTION- IV

Involvement of staff in other Activities/ Additional Academic Progress: (Total Credit Point: 20)

A. MoU made with organization/ Alumni work

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	Physician Committee	member	Role of nutrition in prevention & Tx	1 Days

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points Member of committee- 2 credit points)

B. Additional degree/ super speciality degree/ Ph.D./

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Program (course)	Place & Registration Date	Duration of Program	Present Status
1.	Ph. D in Medical microbiology	2023. Indore	4+years	Pursuing.

C. Short courses / online courses done by faculty

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Course	Conducted by	Course Duration	Date of Result
1.	TB advances: current status, New drugs & Tools & Drug. Resistant Tx	VIMS & RC Bengaluru	1 Days	Completed
2.

Sub :- Recognition as Post-Graduate Teacher.
Ref :- 1) Your letter No. i) GF/DUPMC/PG-Recg/2013/586 dated 08/05/2013.
ii) GF/DUPMC/PG-Recg/2013/686 dated 01/08/2013.
2) Postgraduate Teacher Recognition Committee Meeting dated 15/06/2013.
3) University letter No. MUHS/PG/E-1/1306/1736/13 dated 26/06/2013.

Sir / Madam,

With reference to the above cited subject, I am directed to inform you that in view of the norms prescribed as per provision under the section 29(2)(*l*) of the MUHS Act,1998 Hon'ble Vice-Chancellor is pleased to grant recognition as Post-Graduate Teacher to the following teacher(s) of your Institute/College subject to the terms and conditions of appointment order for imparting instructions to the Post Graduate Degree, Diploma or Super-Specialty Course(s) (as applicable) in the subject mentioned against his/ her/ their name.

Sr. No.	Subject	Name of the Teacher	Designation	Status of PG recognition
01	Forensic Medicine	Dr. Jayant Ramakant Shinde	Professor	w.e.f. 03/11/2012 & onwards

Kindly note that the recognition granted by the University is valid till the above said teacher is in the services of the said PG teaching Institute/ College or attains the age of superannuation, whichever happens earlier.

The above teacher(s) is/are required to attend the Research Methodology Workshop conducted by Regional Center, Pune of this University or any other centre authorised by the University within the period of one year, failing which, the recognition issued shall stand automatically cancelled, which may please be noted.

You are requested to handover the copy of letter to the concerned teacher(s) for further necessary action.

Yours faithfully,

Dr.Ulhas Patil Medical College and Hospital,Jalgaon Kh.

Sub: Approval to the appointment of teachers of your college

Ref.: Your letter no. GF/DUPMCH/Teacher approval/2013/463 dtd. 20/02/2013

Sir,

With reference to the subject cited above, regarding the proposal for approval to the appointment of teachers of your College (as per the interview held on 02/11/2012 and 03/11/2012), I am to inform you that the Hon'ble Vice-Chancellor is pleased to grant approval (UG) to the appointment of following teachers as indicated below.

Sr. No.	Subject	Name of the teachers	Designation	Status of Approval
1.	Pathology	Dr. Umesh B. Kolhe	Tutor	w.e.f. 03/11/2012 & onwards.
2.	Pathology	Dr. Shital T. Patil	Tutor	The candidate is selected against SC category post, hence is approved as Tutor w.e.f. 03/11/2012 for one year only.
3.	Pathology	Dr. Dipesh N. Jogad	Tutor	The candidate is selected against ST category post, hence is approved as Tutor w.e.f. 03/11/2012 for one year only.
4.	FMT	Dr. Jayant R. Shinde	Professor	w.e.f. 03/11/2012 & onwards.
5.	Paediatrics	Dr. Hemant S. Agrawal	Tutor	The candidate is selected against SC category post, hence is approved as Tutor w.e.f. 03/11/2012 for one year only.
6.	Psychiatry	Dr. Kirti P. Deshmukh	Tutor	w.e.f. 03/11/2012 & onwards.

Further, it is mandatory for the teachers approved by the University to comply according to Medical Council of India Notification No. MCI-12(2)/2009-Med.-22654 dated 21/07/2009 and MCI-12(2)/2009-Med.Misc./56925 dated 15/12/2009.

You are requested to handover a copy of letter to the concerned teachers.

Yours,

Asst. Registrar

Sub.: Regarding Conduct of University Practical Examinations and Assessment of Theory Papers.

Sir/Madam,

1. I am directed to inform you that Board of Examinations is pleased to appoint you as an 'Convenor/Examiner'. The details of your assignments are given in Appendix-A mentioned below. Please keep your appointment strictly confidential and address all the correspondance in connection to the Controller of Examinations.
2. This appointment is issued subject to the assumptions mentioned below:-
   - That none of you has any relation of the following type appearing in the class and faculty for which your appointment is made, at this examination of the University:-
     wife, husband, son, daughter, grand-son, grand-daughter, brother, sister, nephew, niece, uncle, grand-nephew, grand-niece, aunt, first cousin, son-in-law, daughter-in-law, brother-in-law and sister-in-law.
     (N.B. - Son, daughter, brother or sister will be understood to include also step-son, step-daughter, step-brother or step-sister as the case may be.)
   - That none of you is debarred from examination work by the parent or any other University.
   - That you are not a member of Board of Examinations.
   - That you are not undergoing Post Graduate examination of this University.
3. You are required to be in touch with the Principal and the Convenor for further details. Kindly specify your acceptance or non-acceptance online or by email to email id and telphone numbers to this office with a copy to the Convenor.
4. Kindly also note that during the period of Practical Examination, you will be given a job of assessment of Theory Answerbooks and you will not be permitted to leave the Exam Centre without completion of the said task. Valuation of Theory manuscripts is compulsory if allotted.
5. **Sr. External Examiner should be held responsible for checking IA marks of concerned subject as per norms of respective central council / commission.**
6. Your reply should reach the University within 7 days from the receipt of the appointment by SMS/Email/etc; otherwise it will be teated as your non-acceptance for the same.
7. Please note that the University examination work is mandatory as per the provisions of Section-63(g) of the MUHS Act 1998. If it is refused without substantial ground, disciplinary action shall be initiated.
8. Please intimate this office, if you are holding any other appointment of the University, other than this appointment.
9. Your kind cooperation in smooth functioning of the examination is solicited.

Staff Performance Self-Appraisal Report

Academic Year: From 01/08/2024 to 31/07/2025

Name of Faculty	Dr. Yashowardhan Mahendra Kabra		
Qualification	MD-Community Medicine	**Designation:**	Assistant Profesor
Department	Community Medicine	**Date of Joining**	24/05/2021
University Approved faculty with Date	15/7/2024 To 14/7/2026	**Total Teaching Exp.:**	

SECTION- I.
Teaching Learning and Evaluation: (Total Credit Points:40)

A. Teaching Load Details (15 Credit Points) — **To be filled by Faculty**

No. of Lectures /Practical Scheduled	No. of Lectures/ Practical Conducted	No. of Tutorials/ SGD Scheduled	No. of Tutorials/ SGD Conducted	No. of Seminar/ Demonstration Scheduled	No. of Seminar/ Demonstration Conducted	Overall Percentage of Attendance	Result of Subject
23	22	3	2	2	2	97%	94%

Guidelines for Evaluation: - Teaching Load Conducted
(100% or more: 15 credit points ; 90 – 99 conducted: 12 credit points ; 80 – 89 % conducted: 9 credit points;
70 – 79 % conducted: 6 credit points; Below 69% conducted: 3 credit points)

B. Teaching Load Academic Schedule Details: (25 Credit Points) — **To be filled by Faculty**

Use of Pedagogical Aids in T-L method (5 credit points)	Paper setting/ Paper checking Departmental work (5 credit points)	Efforts taken for improvement of Students performance (5 credit points)	Project Guided to Students (5 credit points)	Funded Research Projects Undertaken (5 credit points)
✓	✓	✓	✓	–

SECTION: II
Research, Academic Contribution and Professional Achievements: (Total Credit Points:60)

A. Examination Duties at University level / College level: (10 credit points) — **To be filled by faculty**

Sr	Examination	Centre	Worked as External / Internal	Duration in Days
1.	College level	DUPMC Jalgaon	Internal	8 days.
2.				
3.				
4.				
5.				

Guidelines for Evaluation: Duration of Examination: 1 day one credit point. Maximum 10 credit points

B. Research Article Published in National, International Journal / Book Chapter Published

First author: 7 Credit Point /Activity; Second author: 5 Credit Point /Activity. (Max. 2 activity)

1.	Title	Impact of health education on Preventive Eye Care in school Children: A cross-sectional study		
	Name of Journal	International Jour. of Tropical Medicine	ISSN/ISBN No.	
	Indexed In	Scopus, Embase	Author Order	3rd
	Publication Details	Year/Volume/Issue/Page Number		
2.	Title of Book	2024 | Vol-19 | No-4 | 60-64		
	Publisher	MAK HILL Publication	ISBN No.	1818-779X
	Publication Details	Edition / Year 2 Oct. 2024		

C. Paper / Poster presented in conference

5 Credit Point /Activity (Max. 2 activity)

1,	Title of Paper / Poster	Homeopathic Tretment of vitiligo patient with LM Potencies A Prospective multi-centsi cobservational study ≥ 3yrs follow-up		
	Conference Details	Organized by	Ultretch	
		Place and Date	14 to 17 May	Netherlond.
2.	Title of Paper / Poster	A Prospective observational clinical trial to evaluate Response to Homeopathic Psoriasis		
	Conference Details	Organized by	Ultretch	
		Place and Date	14 to 17 may	Netherlond.

D. Seminar/ Conference/ Workshop/ CPD/ FDP, etc Participated

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Program	Place & Date	Duration	Organized by
1.	Pre Conference workshop	DUPMC Jalgaon 16/01/2025	1 day	DUPMC Jalgaon
2.	26th MHIAPSM IPHACON-2025	DUPMC Jalgaon 17/01/2025 & 18/01/2025	2 day	DUPMC Jalgaon

E. Contribution as Resource Person, Invited speaker, Reviewer, Session Chair, Members of Conference Committee (Not organized by own institute) / Patent/ Copy right

8 Credit Point /Activity (Max. 2 activity)

Sr	Name of Program	Place & Date	Contribution as	Organized by
1.	IAPSM & IPHA Joint Stal level Conference	DUPMC & Jalgaon 16/1/2025 to 18/1/2025	IPHA (JUDGE)	DUPMC & IAPSM & IPHA Maharashtra
2.	IPHA State level QUIZ-2025	DUPMC & Jalgaon 11/07/2025		DUPMC & IPHA Maharashtra

Attached copy of all relevant document for Section II

SECTION- III

Extension and Co-Curricular activities with Professional Development: (Total Credit Point: 30)

A. Participation in organizing curricular/ co-curricular/ extracurricular activities

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	-	-	-	-
2.	-	-	-	-

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

B. Contribution in UG/PG Admission process/ Counselling/ Institutional Development (NAAC/NABH etc)

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	-	-	-	-
2.	-	-	-	-

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

C. Participation in Administrative and other responsibility

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	-	-	-	-
2.	-	-	-	-

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

SECTION- IV

Involvement of staff in other Activities/ Additional Academic Progress: (Total Credit Point: 20)

A. MoU made with organization/ Alumni work

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.	-	-	-	-

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

B. Additional degree/ super speciality degree/ Ph.D./

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Program (course)	Place & Registration Date	Duration of Program	Present Status
1.	-	-	-	-

C. Short courses / online courses done by faculty

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Course	Conducted by	Course Duration	Date of Result
1.	-	-	-	-
2.	-	-	-	-

Attached copy of all relevant document

D. Any Award / Appreciation Certificate (Not from own Institution) received by faculty

5 Credit Point /Award or Appreciation Certificate (Max. 1 Consider)

Sr	Name of Award	Place & Date	Local/ State/ any other	Awarding agency
1.	-	-	-	-
2.	-	-	-	-

Attached copy of all relevant document

SECTION- V
Other Information

A. Leave taken by faculty / Absent from the Institute with details: (From 01/08/2024 to 31/07/2025)

C.L	S.L	P.L	C-off	SPL	LWP

B. Memos received during said assessment year:

Declaration:

I, Dr Yashowardhan Mahendra Kabra, faculty of Community Medicine Department, hereby declare that the information provided is true and complete to the best of my knowledge.

Date:

Place:

(Name & Sign of Faculty)
Dr. Yashowardhan Kabra

The information supplied by staff _____
is verified and found to be correct and authentic.

Signature Head of Department

Staff Performance Self-Appraisal Report

Academic Year: From 01/08/2024 to 31/07/2025

Name of Faculty	Vijay Pandurang More		
Qualification	M.Sc. Statistics	**Designation:**	Statistician
Department	Community Medicine	**Date of Joining**	2/8/2010
University Approved faculty with Date		**Total Teaching Exp.:**	14 Years

SECTION- I.
Teaching Learning and Evaluation: (Total Credit Points:40)

A. Teaching Load Details (15 Credit Points) — **To be filled by Faculty**

No. of Lectures /Practical Scheduled	No. of Lectures/ Practical Conducted	No. of Tutorials/ SGD Scheduled	No. of Tutorials/ SGD Conducted	No. of Seminar/ Demonstration Scheduled	No. of Seminar/ Demonstration Conducted	Overall Percentage of Attendance	Result of Subject
15	15	-	-	-	-	100%	97%

Guidelines for Evaluation: - Teaching Load Conducted
(100% or more: 15 credit points ; 90 – 99 conducted: 12 credit points ; 80 – 89 % conducted: 9 credit points;
70 – 79 % conducted: 6 credit points; Below 69% conducted: 3 credit points)

B. Teaching Load Academic Schedule Details: (25 Credit Points) — **To be filled by Faculty**

Use of Pedagogical Aids in T-L method (5 credit points)	Paper setting/ Paper checking Departmental work (5 credit points)	Efforts taken for improvement of Students performance (5 credit points)	Project Guided to Students (5 credit points)	Funded Research Projects Undertaken (5 credit points)
5	5	5	5	0

SECTION: II
Research, Academic Contribution and Professional Achievements: (Total Credit Points:60)

A. Examination Duties at University level / College level: (10 credit points) — **To be filled by faculty**

Sr	Examination	Centre	Worked as External / Internal	Duration in Days
1.	University MUHS	DUPMC Jalgaon	Internal	15 days
2.	University Practical	DUPMC Jalgaon	Expert. Asst.	7 days
3.	College level	DUPMC Jalgaon	Internal	5 days
4.				
5.				

Guidelines for Evaluation: Duration of Examination: 1 day one credit point. Maximum 10 credit points

B. Research Article Published in National, International Journal / Book Chapter Published				
First author: 7 Credit Point /Activity; Second author: 5 Credit Point /Activity. (Max. 2 activity)				
1.	Title			
	Name of Journal	–	ISSN/ISBN No.	–
	Indexed In	–	Author Order	–
	Publication Details	Year/Volume/Issue/Page Number		
2.	Title of Book			
	Publisher	–	ISBN No.	–
	Publication Details	Edition / Year	–	

C. Paper / Poster presented in conference				
5 Credit Point /Activity (Max. 2 activity)				
1,	Title of Paper / Poster			
	Conference Details	Organized by Dept. of Community Medicine	–	–
		Place and Date 16/1/25 to 18/1/25	–	–
2.	Title of Paper / Poster			
	Conference Details	Organized by	–	–
		Place and Date	–	–

D. Seminar/ Conference/ Workshop/ CPD/ FDP, etc Participated				
5 Credit Point /Activity (Max. 2 activity)				
Sr	Name of Program	Place & Date	Duration	Organized by
1.	Pre conference Workshop	DUPMC Jalgaon 16/01/2025	1 day	DUPMC Jalgaon
2.	26th MHIAPSM IPHACON 2025	DUPMC Jalgaon 17/01 & 18/01/25	2 days	DUPMC Jalgaon

E. Contribution as Resource Person, Invited speaker, Reviewer, Session Chair, Members of Conference Committee (Not organized by own institute) / Patent/ Copy right				
8 Credit Point /Activity (Max. 2 activity)				
Sr	Name of Program	Place & Date	Contribution as	Organized by
1.	IPHA State level Quiz 2025	DUPMC Jalgaon 11/7/2025	Scorer	DUPMC & IPHA Maharashtra.
2.	IAPSM & IPHA Joint statelevel Coference.	DUPMC Jalgaon 16/8/25 to 18/11/25	Treasurer	DUPMC & IAPSM & IPHA Maharashtra

Staff Performance Self-Appraisal Report

Academic Year: From 01/08/2024 to 31/07/2025

Name of Faculty	Dr. Anushree Bajaj		
Qualification	MBBS, MS	**Designation:**	Professor & HOD
Department	ENT	**Date of Joining**	19/10/2015
University Approved faculty with Date		**Total Teaching Exp.:**	12 years

SECTION- I.
Teaching Learning and Evaluation: (Total Credit Points:40)

A. Teaching Load Details (15 Credit Points) — **To be filled by Faculty**

No. of Lectures /Practical Scheduled	No. of Lectures/ Practical Conducted	No. of Tutorials/ SGD Scheduled	No. of Tutorials/ SGD Conducted	No. of Seminar/ Demonstration Scheduled	No. of Seminar/ Demonstration Conducted	Overall Percentage of Attendance	Result of Subject
10	10	3	3	9	9	90%	90%

Guidelines for Evaluation: - Teaching Load Conducted
(100% or more: 15 credit points ; 90 – 99 conducted: 12 credit points ; 80 – 89 % conducted: 9 credit points;
70 – 79 % conducted: 6 credit points; Below 69% conducted: 3 credit points)

B. Teaching Load Academic Schedule Details: (25 Credit Points) — **To be filled by Faculty**

Use of Pedagogical Aids in T-L method (5 credit points)	Paper setting/ Paper checking Departmental work (5 credit points)	Efforts taken for improvement of Students performance (5 credit points)	Project Guided to Students (5 credit points)	Funded Research Projects Undertaken (5 credit points)
Yes	Yes	Yes	Yes	No

SECTION: II
Research, Academic Contribution and Professional Achievements: (Total Credit Points:60)

A. Examination Duties at University level / College level: (10 credit points) — **To be filled by faculty**

Sr	Examination	Centre	Worked as External / Internal	Duration in Days
1.	III (I) MBBS Internal Exam	DUPMCH	Conjoint	6
2.	III (I) MBBS MUHS Practl Exam	N.S.C. Govt. medical college Khandwa (MP)	External	1
3.	MUHS Practical Exam	ACPM medical college Dhule	External	1
4.				
5.				

Guidelines for Evaluation: Duration of Examination: 1 day one credit point. Maximum 10 credit points

B. Research Article Published in National, International Journal / Book Chapter Published					
First author: 7 Credit Point /Activity; Second author: 5 Credit Point /Activity. (Max. 2 activity)					
1.	Title	Evaluation and comparision of outcomes between sliced thyroid cartilage and Temporalis fascia graft particularly in Pt with Large perforation.			
	Name of Journal	Journal of contemporary clinical practice	ISSN/ISBN No.	2458-7200	
	Indexed In	10.61336/JCCP/25-04-87	Author Order		
	Publication Details	Year/Volume/Issue/Page Number	2025/11/03/577-587		
2.	Title of Book				
	Publisher		ISBN No.		
	Publication Details	Edition / Year 2025			

C. Paper / Poster presented in conference				
5 Credit Point /Activity (Max. 2 activity)				
1,	Title of Paper / Poster			
	Conference Details	Organized by		
		Place and Date		
2.	Title of Paper / Poster			
	Conference Details	Organized by		
		Place and Date		

D. Seminar/ Conference/ Workshop/ CPD/ FDP, etc Participated				
5 Credit Point /Activity (Max. 2 activity)				
Sr	Name of Program	Place & Date	Duration	Organized by
1.				
2.				

E. Contribution as Resource Person, Invited speaker, Reviewer, Session Chair, Members of Conference Committee (Not organized by own institute) / Patent/ Copy right				
8 Credit Point /Activity (Max. 2 activity)				
Sr	Name of Program	Place & Date	Contribution as	Organized by
1.				
2.				
Attached copy of all relevant document for Section II				

SECTION- III

Extension and Co-Curricular activities with Professional Development: (Total Credit Point: 30)

A. Participation in organizing curricular/ co-curricular/ extracurricular activities

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.				
2.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

B. Contribution in UG/PG Admission process/ Counselling/ Institutional Development (NAAC/NABH etc)

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.				
2.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

C. Participation in Administrative and other responsibility

5 Credit Point /Activity (Max. 2 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.				
2.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

SECTION- IV

Involvement of staff in other Activities/ Additional Academic Progress: (Total Credit Point: 20)

A. MoU made with organization/ Alumni work

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Committee	Position Held	Name of Activity	Duration & Date
1.				

Guidelines for Evaluation: (Incharge/ coordinator of committee: 5 credit points
Member of committee- 2 credit points)

B. Additional degree/ super speciality degree/ Ph.D./

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Program (course)	Place & Registration Date	Duration of Program	Present Status
1.				

C. Short courses / online courses done by faculty

5 Credit Point /Activity (Max. 1 activity)

Sr	Name of Course	Conducted by	Course Duration	Date of Result
1.				
2.				

Attached copy of all relevant document

D. Any Award / Appreciation Certificate (Not from own Institution) received by faculty

5 Credit Point /Award or Appreciation Certificate (Max. 1 Consider)

Sr	Name of Award	Place & Date	Local/ State/ any other	Awarding agency
1.	—			
2.	—			

Attached copy of all relevant document

SECTION- V
Other Information

A. Leave taken by faculty / Absent from the Institute with details: (From 01/08/2024 to 31/07/2025)

C.L	S.L	P.L	C-off	SPL	LWP

B. Memos received during said assessment year:

Declaration:

I, Dr. Anushree Bajaj, faculty of ENT Department, hereby declare that the information provided is true and complete to the best of my knowledge.

Date: 17/09/2025

Place: DUPMC Jalgaon

1) *The approval granted by the University is subject to successful completion of at least one Medical Education Technology (MET) workshop conducted by the University, within the period of one year from the date of approval. If any teacher fails to comply with the said provision, the approval granted by the Vice-Chancellor shall stand cancelled automatically.

2) The approval granted by the University is valid till the above said teacher is in the services (teaching) of your College or attains the age of superannuation, whichever happens earlier. However, it is mandatory to prepare the Reservation Roster and get it approved from the appropriate authorities & fill up the post permanently as early as possible.

3) This temporary approval is granted subject to the rules and regulations of the University, from time to time, and shall be liable to be cancelled or amended, at any time, without prior notice.

4) A copy of this letter may be handed over to concerned Teacher.
