**8.1.2 Students are exposed to quality of care and patient safety procedures including infection prevention and control practices as practiced by the teaching hospital in didactic and practical sessions during their clinical postings.**

Dr. Ulhas Patil Medical College and Hospital is dedicatedly serving patients from Khandesh region.

We are maintaining quality of care, at the same time paying meticulous attention to patient safety mechanisms. Infection prevention and infection control practices are routinely followed in our hospital and also supervised.

Various training programs such as hospital infection control, bio-medical waste management, safe blood transfusion, medical ethics, disinfection, and sterilization are conducted for undergraduate, postgraduate students and other healthcare workers also..

Medical students are taught these good clinical practices through didactic lectures, practical sessions, clinical postings, bedside clinics and workshops. Teaching learning activities like foundation course, orientation program, didactic lectures, practical sessions, clinical postings, bed-side teaching sessions, hands-on training programs, workshops, tutorials etc. are conducted for medical students. Students are exposed to bio-medical waste segregation, hand hygiene, universal safety precautions, post-exposure prophylaxis, indoor patient rounds, etc. by various health posters and guidelines displayed in hospital at out-patient departments, in-patient departments, operation theatres, medical emergency unit.

During post-graduate programs, they are taught about pre-operative check-up, preparation and counseling of patients and relatives, WHO surgical safety checklist for patient management, and safety. Necessary intra-operative monitoring, suture techniques, fluid management, etc. are taught by respective departments. Important topics like informed consent, documentation, medico-legal records, and protocols are also covered during the program.

Following topics are covered through various teaching activities to Undergraduate and post graduate students:

Patient safety manual

Universal safety precautions while working with any biological material and patients

Bio-medical waste management and treatment

Disaster preparedness, response, mitigation and management

Blood transfusion and safety, blood transfusion reactions and management

Dr. Ulhas Patil Medical College  
& Hospital, Jalgaon Kh.
